**ENSURE REGISTRATION OF EVERY BIRTH AND DEATH**

## PREFACE

The Civil Registration System (CRS) may be defined as a unified process of continuous, permanent and compulsory recording of the vital events and characteristics thereof, as per legal requirements in the country. In India, the Civil Registration System covers registration of births and deaths only. It provides the best source of information on the vital rates at all levels.

2. This issue of the Report on 'Vital Statistics of India based on the Civil Registration System' for the year 2012 provides an overview of the working of the Civil Registration System (CRS) in the country and presents a compilation of data on registered births, deaths and infant deaths with rural-urban & sex-wise break-up and sex ratio at birth based on Civil Registration Records. Ideally, an Annual Report on vital statistics containing more detailed information should have been brought out. However, due to non-availability of Annual Reports from some of the major States and limited availability of information contained in the Annual Reports of some of other States, the report for the year 2012 containing key information has been brought out for the convenience of users. An attempt has been made to present more detailed analysis as compared to previous Reports.

3. The publication is divided into two parts. Part I provides a brief review of the Civil Registration System and contains a summary analysis of data on registered births, deaths, infant deaths and sex ratio at birth at State level. Part II consist of the main tables which provide State and District-wise data on registered births, deaths, infant deaths and still births with rural-urban & sex-wise break-up and sex ratio at birth.

4. The data source for the report is the statutory Annual Statistical Report prepared by the Chief Registrars of Births & Deaths. In respect of States where these reports have not been prepared, the information provided by the Chief Registrars has been used. I take this opportunity to express my sincere gratitude to all the Chief Registrars of Births & Deaths of various States/UTs for their kind co-operation in providing the requisite information.

5. The report has been prepared by the Vital Statistics Division of this office. I would like to place on record my appreciation for the efforts put in by Smt. P. A. Mini and Shri R. K. Gautam, Deputy Registrar Generals, Shri Ajay Khanna, Deputy Director, Shri Sandeep Rai, Assistant Director and Shri Vimal Kaul, Sr. Compiler under the overall guidance of Shri Deepak Rastogi, Additional Registrar General, India.

New Delhi  
March, 2015

Dr. C. Chandramouli  
Registrar General  
& Census Commissioner, India

### Part I - Review and Analysis

Chapter I	Civil Registration System - An Introduction	5 - 7
Chapter II	Annual Report on the working of the RBDAct for the year 2012	8 - 18
Chapter III	A Brief Analysis of Data on registered Births, Deaths and Infant Deaths	19 - 45

### List of Statements

Statement 1	Civil Registration System - At a Glance	3
Statement 2	Estimated events and Level of Registration by India, States 2012	4
Statement 3	Penalties imposed on registration functionaries	7
Statement 4	Details of inspections undertaken	11-12
Statement 5	Details of issuance of birth/death certificates	18
Statement 6	Number of registration units and level of reporting by place, India, States and Uts, 2012	20
Statement 7	Number of registered births and deaths at the national level, 1981 - 2012	21
Statement 8	Number of registered births by States/ Union Territories, 2003-2012	23
Statement 9	Number of registered deaths by States/ Union Territories, 2003-2012	24
Statement 10	Number of registered infant deaths by States/ Union Territories, 2003-2012	25
Statement 11	Sex-wise Registered Births and Deaths of Major States (in '000), 2012	27
Statement 12	Total Registered and Estimated Births & Deaths of Major States, 2012	29
Statement 13	Percentage distribution of registered infant deaths by place of occurrence, 2012	32
Statement 14	Percentage distribution of infant deaths by sex, 2012	32
Statement 15	Still Births registered during 2012	33
Statement 16	Level of Registration of Births, 2003-2012	34-35
Statement 17	Level of Registration of Deaths, 2003-2012	37
Statement 18	Major States (Population above 10 million as per 2011 Census) classified by their level of registration, 2011 and 2012	38
Statement 19	Sex Ratio at Birth based on registered events, 2003-2012	42
Statement 20	Registered Births & Deaths of Indian Nationals in Indian Missions/Post abroad	44-45

## **Part II - List of Detailed Tables**

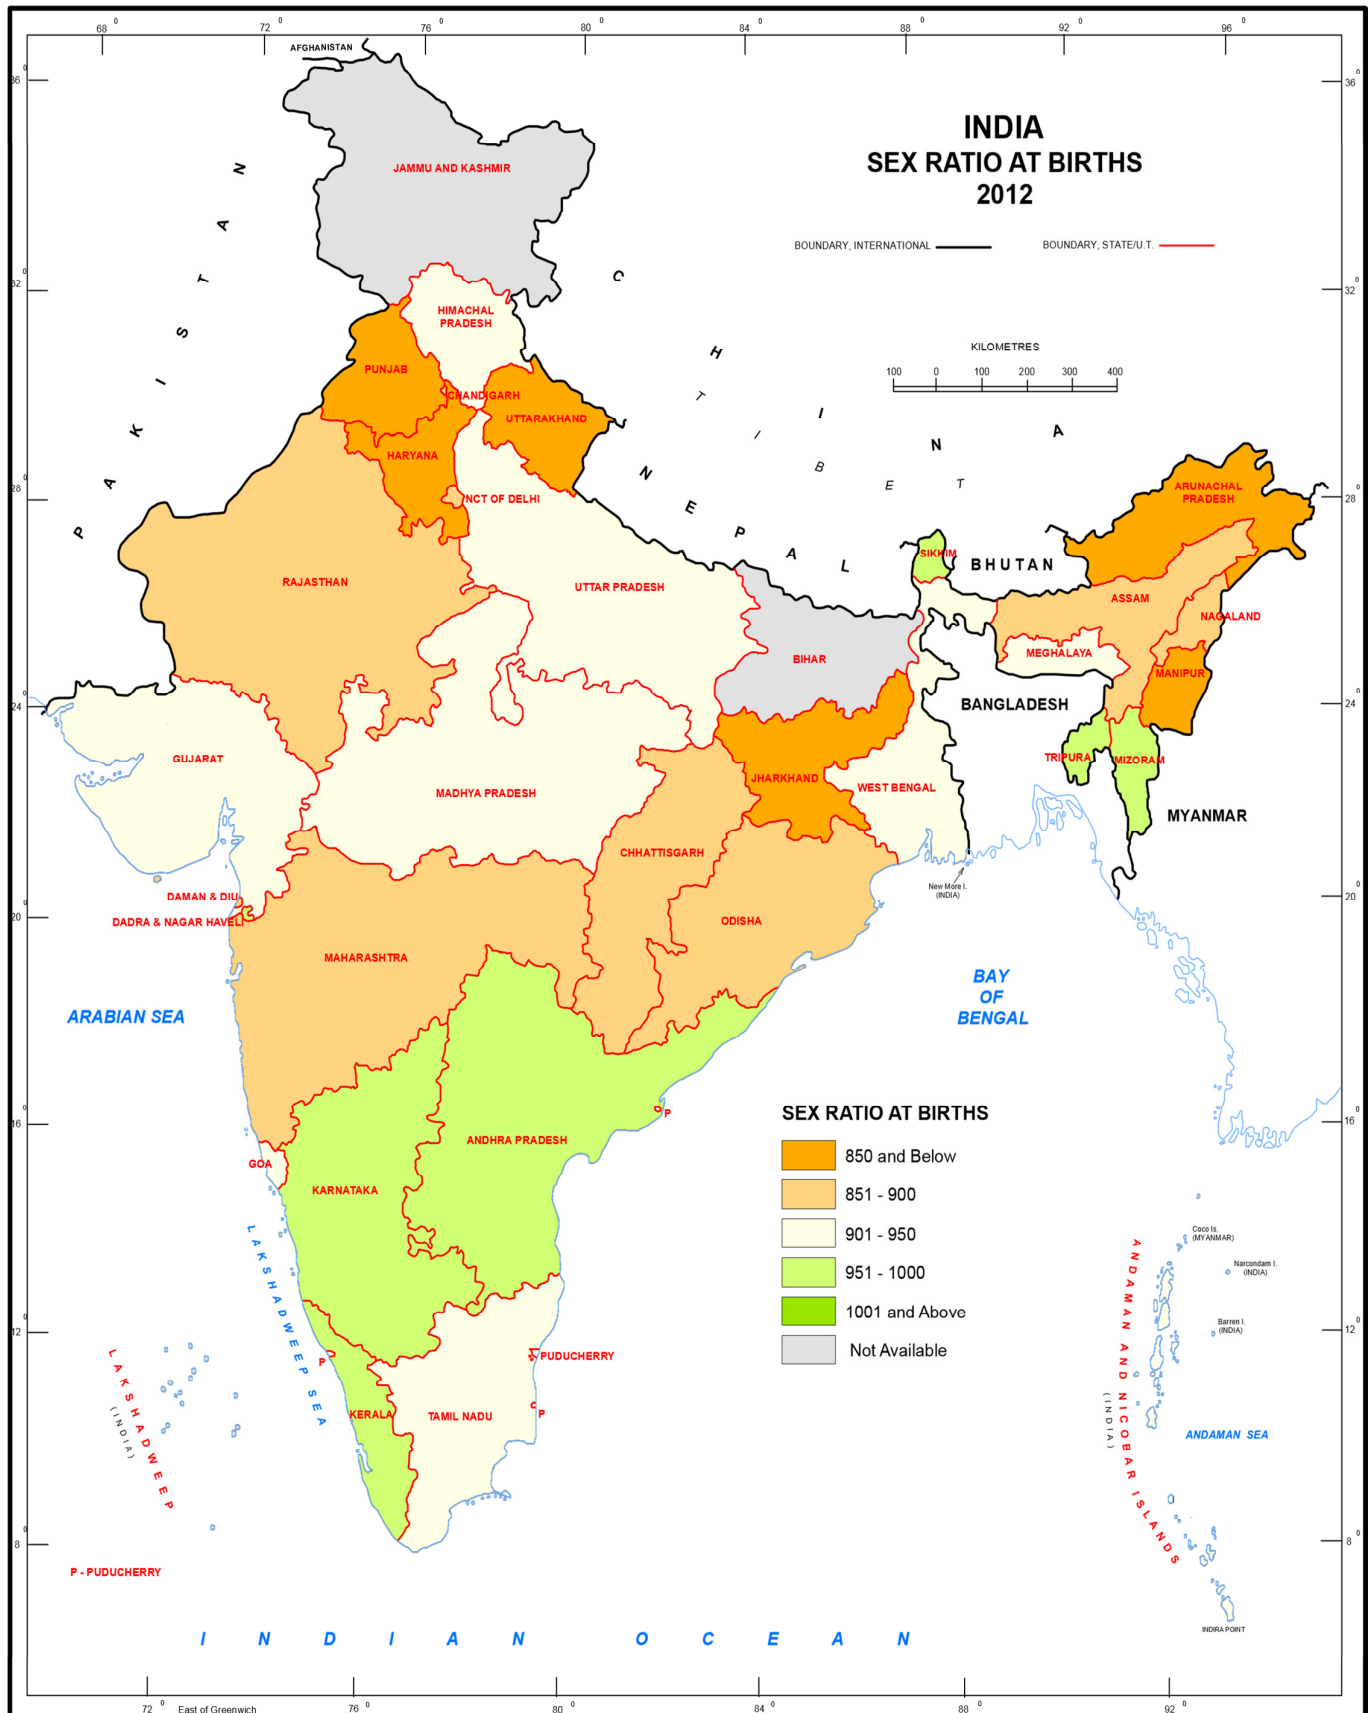

Table 1	Number of live births registered by sex and residence, 2012	48
Table 2	Number of deaths registered by sex and residence, 2012	49
Table 3	Number of infant deaths registered by sex and residence, 2012	50
Table 4	Number of still births registered by sex and residence, 2012	51
Table 5	Level of Registration of births and deaths - States / Union Territories, 2012	52
Table 6	Death by Age and Sex of the deceased, 2012	53-58
Table 7	Number of live births registered - States/Union Territories/Districts, 2012	59-70
Table 8	Number of deaths registered - States/Union Territories/Districts, 2012	71-83
Table 9	Number of infant deaths registered - States/Union Territories/Districts, 2012	84-95
Table 10	Number of still births registered - States/Union Territories/Districts, 2012	96-105
Table 11	Districtwise birth and death rates, 2012	106-113

## **Annexure**

Civil Registration Hierarchy in States and Union Territories	116-121
--	---------

## **Overview of Civil Registration System (CRS)**

1. Registration of birth is a right of the child and is the first step towards establishing their identity.
2. It is compulsory to report births and deaths to the Registrar of Births and Deaths under the Registration of Births and Deaths Act, 1969.
3. Births and Deaths are registered only at the place of their occurrence.
4. Head of the household is responsible to report births and deaths that occurred in the house to the Registrar of Births and Deaths.
5. It is the responsibility of the officer in charge to report the births and deaths that occur in hospitals, nursing homes, health centres, etc. to the Registrar of Births and Deaths of the concerned area.
6. For reporting of events, prescribed forms are used, Form 1 for live birth, Form 2 for death and Form 3 for still birth.
7. Midwives and other Medical and Para-medical persons who have attended a birth of a child are duty bound to notify the Registrar about the occurrence of the birth.
8. Keepers of crematoria and burial grounds, and persons required to be present at such places by a local authority are required to notify the Registrar about the occurrence of the death.
9. The Registrar of Births and Deaths have the power to obtain information regarding birth/death from those who are in the knowledge.
10. Births and deaths are to be reported within 21 days of occurrence of the event.
11. A Birth/Death certificate is to be issued free of charge for events reported within 21 days.
12. Births and deaths reported after 21 days but within 30 days can be registered on payment of prescribed late fee.
13. Births and death reported after 30 days but within one year can be registered on production of an affidavit, permission of the prescribed authority and payment of a late fee.
14. Births and deaths reported after one year can be registered only with the permission of a First Class Magistrate and payment of prescribed late fee.
15. Births can be registered without name of the child.

16. Name of the child can be reported to the registrar for entering in the Birth Register within one year of registration free of charge.
17. Name of the child can also be entered after one year but within 15 years of registration on payment of prescribed late fee.
18. Persons giving information about births/deaths are required to give it under their signature.
19. Errors in the particulars of births or deaths in the registers can be corrected according to the prescribed procedure.
20. Wrong and fraudulent entries can be cancelled by the Registrar of Births & Deaths.
21. Under Section 17 of the RBD Act, 1969, any person can cause a search in the birth/death registers for any entry and obtain a certified extract (Birth/Death Certificate).
22. Extracts issued under Section 17 of the Registration of Births and Deaths Act shall be admissible as evidence of birth or death to which the entry relates.
23. All Registrars are to send a monthly return to the District Registrar or Chief Registrar.
24. Births that occurred outside the country can also be registered in India within sixty days of return of the family at the place where they settle.
25. There is no provision to register deaths that occurred outside the country.
26. Non-reporting of births and deaths, giving false information for inclusion in the register, refusing to put signature in the reporting form/register and non registration of events reported to the registrar is a punishable offence.
27. Under the RBD Act, 1969, Registrars and Sub-Registrars are the public servants.
28. Registration of births and deaths made prior to implementation of the Registration of Births and Deaths Act, 1969 is deemed to have been done under the same Act.
29. On adoption of a child, the name of the adoptive parents and a new name for the child can be entered in the birth register.
30. Registration of births and deaths is in the interest of the individual and the nation.

## EXECUTIVE SUMMARY

A unified process of continuous, permanent and compulsory recording of the vital events and characteristics thereof, as provided through the legal requirements of the country, is called Civil Registration System (CRS). In India, the Registration of Births and Deaths Act, 1969, provides for the compulsory registration of births and deaths. Civil Registration records are the best source of Vital Statistics. The records resulting from Civil Registration System have two main uses. First, as a personal legal document, required by citizens as proof of facts e.g. age, identity etc and second, the data generated through a complete and up to date System of Civil Registration are essential for socio-economic planning and also to evaluate the effectiveness of various public's related programs. They also serve as the cornerstone of public health systems. This Annual Statistical Report on Vital Statistics of India for the year 2012 has been brought out on the basis of data made available by the Chief Executive Authorities i.e. Chief Registrar of Births and Deaths of States/Union Territories. The main findings of the report have been summarized below:

**VITAL INDICATORS:** Notwithstanding the difference in approach of data collection between CRS and Sample Registration System (SRS), a comparison of vital rates based on these two sources helps in evaluating the performance of CRS over SRS. Level of reporting helps in reviewing the registration system and defining measures that would be necessary to improve registration levels across the country. The level of reporting is around 95.2% at National level during 2012 as compared to 92.5% in 2011. Such reporting level by rural and urban registration units are about 95.2% and 97.5% respectively.

### **Birth Registration:**

- The number of reported registered births has reached to 21.9 million in 2012 as compared to 8.6 million in 1981.
- The share of registered births to total estimated births under SRS is increasing year by year which in result shows the significant improvement in birth registration.
- The share of male registration (52%) is more than the female (48%) for registered births during 2012.
- Share of Institutional births in total registered births 68.4% during 2012. It is based on information received from 22 States/UTs.
- The level of registration of births has increased from 57.7 per cent in 2003 to 84.4 per cent in 2012.
- 17 States/UTs have achieved the target of cent per cent level of registration of births during 2012.
- 10 among 19 major States have crossed the level of registration of births of 90 percent. These States are Gujarat, Haryana, Karnataka, Kerala, Maharashtra, Odisha, Punjab, Rajasthan, Tamil Nadu and West Bengal.
- After excluding 2 most populous and poor performing States namely Bihar and Uttar Pradesh, the level of registration of births comes out to be 94.8%.
- The level of registration of births for other States/UTs is higher than that of Southern as well as EAG States & Assam persistently over the period of 2003-2012.
- The Sex Ratio at Birth for the year 2012 comes out to be 908.

- Highest Sex Ratio has been reported by Andhra Pradesh (985) followed by Tripura (980), Sikkim (974) & Karnataka (971) during 2012.
- Lowest Sex Ratio has been reported by Manipur (797) followed by Arunachal Pradesh (819).

### **Death Registration:**

- The number of registered deaths has also more than doubled in the year 2012 as compared to 1981 (5.8 million in 2012 from 2.7 million in 1981). There is improvement in total number of registered deaths during 2012 as compared to 2011.
- The share of registered deaths to total estimated deaths under SRS is increasing year by year with fluctuating trend.
- Male share (59%) in total registered deaths is more than the female (41%).
- Share of Institutional deaths in total registered deaths has recorded 41.9% during 2012. 17.4% of the deceased in total registered deaths did not receive any medical attention before deaths which was 10% during 2011. This information is based on information received from 21 States/UTs.
- The level of registration of deaths has increased from 53.5 per cent in 2003 to 69.3 per cent in 2012.
- 8 States/UTs have achieved the target of cent per cent level of registration of deaths during 2012.
- 6 among 19 major States have crossed the level of registration of deaths of 90 percent. These States are Haryana, Karnataka, Kerala, Maharashtra, Punjab and Tamil Nadu. During 2011, 5 major States were under this category.
- During 2012, there are only 9 States/UTs who have achieved the target of 90% in case of both birth and death registration.
- After excluding 2 most populous and poor performing States namely Bihar and Uttar Pradesh, the level of registration of deaths comes out to be 79.3%.
- More infant deaths have been registered in urban area than the rural area.
- A substantial gap can be seen in the level of registration of births and deaths between three groups, i) Empowered Action Group (EAG) & Assam, ii) Southern States and iii) Other States/UTs over the period 2003-2012.
- Notwithstanding the difference in approach of data collection between CRS and Sample Registration System (SRS), a comparison of vital rates based on these two sources helps in evaluating the performance of CRS over SRS.

## **GLOSSARY OF TERMS**

**Birth:** Live birth or still birth.

**Live birth:** Complete expulsion or extraction from its mother of a product of conception, irrespective of the duration of pregnancy, which, after such expulsion or extraction, breathes or shows any other evidence of life, and each product of such birth is considered live-born.

**Still Birth:** Foetal death where a product of conception has attained at least the prescribed period of gestation.

**Death:** Permanent disappearance of all evidence of the life at any time after live birth has taken place.

**Infant Death:** Death of a child less than one year old.

**Level of Registration:** The level of registration, defined as the percentage of registered births/deaths to the births/deaths estimated through SRS, determines the performance level of a State / Union territory with regard to functioning of Civil Registration System.

$$\text{Level of Registration (LOR)} = \frac{\text{Number of events registered during the year}}{\text{Number of estimated events for the year}} \times 100$$

**Mid-year Population:** Population at the mid-point of the year, i.e., 1<sup>st</sup> July of the year.

$$\text{Number of estimated events for a year} = \text{Mid – year population} \times \text{SRS Rate}$$

$$\text{Sex Ratio at birth (SRB)} = \frac{\text{Number of female births registered during the year}}{\text{Number of male births registered during the year}} \times 1000$$

$$\text{Gross Natural addition to the Population} = \text{Total Registered Births} - \text{Total Registered Deaths}$$

\*SRS BR: Sample Registration System Birth Rate, \*SRS DR: Sample Registration System Death Rate

## **CHAPTER – I**

### **CIVIL REGISTRATION SYSTEM - AN INTRODUCTION**

1.1 The requirement for a complete and up to date Vital Statistical System to yield reliable data on vital events hardly needs any emphasis. These data are essential for socio-economic planning and development and also to evaluate the effective implementation of various programs. The chief sources for data on vital events in India are Civil Registration System (CRS), Sample Registration System (SRS) and Population Census. The Population Census remains the main source of information on population and its characteristics; however, being a decennial exercise, it does not provide the measure of population change from year to year. The measures of fertility and mortality derived from the Census are centered on the midpoint of the decade and as such do not provide annual change in the population. Of the other two sources of vital statistics for getting the vital rates on a regular basis, the SRS has been designed to provide reliable estimates at National and State level. Robust estimates of vital rates at District and sub-district level on an annual basis through sample survey are difficult to obtain on account of prohibitively large sample size and variety of resultant factors such as controlling of non-sampling errors etc. CRS is thus the only source for providing vital rates at district and sub-District level. Rather a complete CRS can provide these rates at all administrative levels.

1.2 The Civil Registration System (CRS) may be defined as a unified process of continuous, permanent and compulsory recording of the vital events and characteristics thereof, as per legal requirements in the country. In India, the Civil Registration System cover registration of births and deaths only. Civil registration system provides the best source of information on the vital rates at all levels. Full coverage of vital events by registration machinery only can help in reaching to the high-quality vital rates which may be used for planning or research. Therefore, concentration should be given to the proper monitoring of the activities under the system. Civil registration systems are considered to be complete if they cover 90 per cent or more of all live births and deaths taking place within a country or area. However, in India the coverage of registration system is incomplete and not up to the mark to be utilized for statistical purposes at the National level but there are 22 States/UTs where the coverage of birth registration is more than 90 per cent and 16 States/UTs where the coverage of death registration is more than 90 per cent.

1.3 The registration records are primarily useful for their value as legal documents and secondarily as the source of vital statistics. Civil registration as a source of vital statistics is relatively less expensive, as the statistics generated from the registration records are the by-products of an essential administrative process. The registration records can also generate current and continuous statistics, which can be more accurate than any other method of data collection. However, the reliability of the statistics obtained through the registration system depends much on the completeness and promptness with which events are registered and the accuracy of the information in the registration records. The improvement in the system of registration of births and deaths is critically dependent on how much importance is attached to the data on births and deaths by the respective States and District administrations. Besides, the level of awareness among the public about the utility of birth/death certificate also plays a crucial role.

1.4 Vital statistics generated through registration records enable estimation of the size, structure and geographical distribution of the population for the current year except for migration. Vital statistics also enables the projections for future years on the basis of probable trends of fertility and mortality as derived from a study of these factors and their interactions with social, economic and other demographic factors. The vital statistics data generated through an effective Civil Registration System is of immense use for formulation of various development and welfare programmes/ schemes. Civil Registration data can act as an objective source for allocation of financial resources at State and District level. The Civil Registration data acquires paramount importance in the wake of 73<sup>rd</sup> and 74<sup>th</sup> amendments to the constitution of India, as it can provide data at local level for micro level planning, monitoring and evaluation of schemes. At national level, the vital statistics data generated through Civil Registration is quite useful for medical research and in the study of sex ratio, mortality and morbidity rates and also in the study of causes of deaths.

### **Registration of births and deaths in India**

1.5 In India, the registration of births and deaths is carried out under provisions of the Registration of Births and Deaths (RBD) Act, 1969. The registration is done by the local Registrar appointed by the State Government under whose jurisdiction the event has taken place.

1.6 Provision for registration of births and deaths and the mechanism thereof had been in existence in India for more than a century, however, the work of registration was carried out under various laws and byelaws existing at that time in different parts of the country. The need for improvement in the vital statistics system was felt for long time and, therefore, on recommendations of various committees and conferences, the Registration of Births & Deaths Act, 1969 providing for compulsory registration of births and deaths was enacted. Since then, this Act has been enforced uniformly across all the States and Union territories. This Act provides for registration of births and deaths and publication of statistical reports annually based on the civil registration data. The enactment of the Registration of Births & Deaths Act, 1969 *has* provided a common framework for putting in place a sound system of registration of births and deaths in the country.

1.7 The registration work at various levels in States/Union Territories is performed by involving officers of different Departments. The existing organizational set-up involved in the work of civil registration at various levels in different States/Union Territories is given at **Annexure-A**. A uni-linear hierarchy exists in 10 States/ UTs where single department is involved at all levels of registration. In 7 States namely Assam, Haryana, Meghalaya, Odisha, Punjab, Sikkim and A&N Islands Health Department is involved at all levels of registration. Panchayats in Kerala, Revenue in Dadra & Nagar Haveli and Local Administration Department in Puducherry are responsible for execution of this work at all levels. At present, Health Department supervises the civil registration work at State level in 19 States/Union Territories, Department of Panchayats in 1 UT namely Lakshadweep and Department of Planning, Economics & Statistics in 12 States/ Union territories.

1.8 In order to simplify and speed up the process of registration and to bring in uniformity in birth and death registration formats, the registration system was revamped in the year 2000. Under the revamped system, the procedure for registration of births and deaths was also modified to some extent

and the forms redesigned. Most of the tables to be part of the Annual Report of the Chief Registrars based on registration of births and deaths data under revamped system would be based on the information of place of usual residence of mother in case of births and place of usual residence of the deceased in case of deaths. The revamped system became operational in 2000 in all States/Union Territories except Assam, Arunachal Pradesh, Gujarat, Haryana, Himachal Pradesh, Odisha, Punjab, Uttarakhand and Uttar Pradesh. It was implemented in Assam, Arunachal Pradesh and Odisha in 2001, Haryana in 2002, Himachal Pradesh, Uttarakhand and Uttar Pradesh in 2003 and Gujarat and Punjab in 2004.

## **Statistical Reports**

1.9 System of Registration of Births and Deaths is constantly generating statistical information at the local level. The information contained in the Reporting Forms is consolidated for onward transmission to the Chief Registrar of a State/UT. Every Chief Registrar is required to submit an Annual Report on the Working of the Act and a Statistical Report to the State Government by July and December respectively of the following year to which the report relates. The Chief Registrars are also required to send a copy of these Reports to the Registrar General, India, Govt. of India.

1.10 Based on the Annual Statistical Report prepared by the States, the Office of the Registrar General, India, brings out annually a comprehensive statistical report entitled "Vital Statistics of India based on Civil Registration System". This series of reports have been brought out since 1958. However, most of the States are not bringing out their Annual Statistical Reports in time, and this in turn, delays the publication of the corresponding national report. It has also been observed that many of the States do not include all the prescribed tables in their reports making the utility of the national report very limited. However, most of the States have sent the annual information on births and deaths registered up to 2012. This information is available for most of the Districts with rural- urban and sex wise break-up. Therefore, this report has been prepared by compiling this information. Keeping in view the importance and use of the data on registered births and deaths, this report provides the District-wise registered births and deaths along with infant deaths with sex-wise and rural-urban break-up of registered events for the year 2012.

\*\*\*\*\*

## CHAPTER – II

### Annual Report on the working of the RBD Act for the Year 2012

1. **Printing of Training Manual** – To improve the capabilities of officials engaged in Civil registration Work in the various part of the Country, this office has prepared a Training Manual namely “Training Manual for Civil Registration Functionaries in India”. This training manual has been developed by the Office of the Registrar General India, New Delhi through the Indian Institute of Health Management Research (IIHMR), Jaipur and with the support of UNICEF, New Delhi. The manual has been pre-tested and suitably modified on the basis of feedbacks received from the participants in the pre-test workshops organized during May and June, 2012 at Delhi and Jaipur. The said Manual will serve as the reference guide for the CRS functionaries in understanding the registration process and provisions of the Registration of Births and Deaths (RBD) Act, 1969 and Rules framed thereunder from time to time. The said Manual has been printed in 11 regional languages namely Marathi, Gujarati, Kannada, Tamil, Assamese, Malayalam, Urdu, Oriya, Telugu, Bengali and Punjabi and also in Hindi and English. These Manuals has already been distributed to the concerned State and district authorities.

2. **Circular issued for making / changing entries in the birth record of children taken on adoption** –The issue relating to registration of birth of children taken on adoption hitherto were dealt as per the guidelines issued by ORGI during 1999. In order to add the objectivity to the entire process and also to keep abreast with the changes taken place, an emergent need was felt to revisit the subject. Accordingly, a new birth reporting form 1-A (Birth Report for adopted child) is introduced for making / changing entries in the birth record of children taken on adoption, in order to facilitate the adoptive parents to have a proper birth certificate with their name as the parents. These guidelines covered both adoptions i.e. adoptions through institutions or outside institutions. All adoptions are subject to order of the Magistrate having jurisdiction over the area in which the event falls. A circular in this regard has been issued by this office on 12<sup>th</sup> March, 2012.

3. **A circular on determination of place and date of death of missing person for registration of death** –There are instances, where a person is missing but the family does not have her / his current status i.e. whether the person is alive or dead. In such situations, people ask for providing death certificate for missing persons. However, it has been observed that in many circumstances, the date and place of death is not mentioned in the order issued by the court regarding presumed dead, which is mandatory for registering the death. In this connection, the matter was taken up with the Union Law Ministry and a clarification was issued to all States/ UTs. The gist of the clarification is given below:

*Ordinarily, if the person is missing or unheard, she / he shall be presumed to be dead by the court under Section 107 and 108 of Indian Evidence Act on expiry of seven years from the date missing and not earlier.*

*The presumption of death and its date and place of occurrence is a matter of burden of proof. The same may be determined by the competent court / authority based on the oral and documentary evidence produced before the court by the plaintiff. If the Court does not mention the date of death in its order, the date on which plaintiff approached to the Court would be taken as the date of death. In case of place of death, if it is not mentioned in the court order, the place of death' may be that place where plaintiff approached the court.*

**4. Registration Machinery:** Section 3 to 7 of the Registration of Births and Deaths (RBD) Act 1969 provides for the appointment of functionaries at all levels like (i) National level -Registrar General, India; (ii) State level - Chief Registrar; (iii) District level - District Registrar (iv) local area level- Registrar for a village, Panchayat, municipality, municipal corporation or other local bodies; and (v) Sub-Registrar for specified area within the area under the jurisdiction of a Registrar.

Under Section 3(3) of the RBD Act, 1969, the Registrar General, India (RGI), take steps to coordinate and unify the activities of Chief Registrars of Births and Deaths of all States/Union territories and require to issue general directions regarding registration of births and deaths. The RGI also require to submit a report to the Central Government on the working of the RBD Act. The work relating to Civil Registration in the office of the Registrar General, India is handled in Vital Statistics Division. The work of registration is carried out by a three-tier hierarchy: The Chief Registrar, District Registrar and local Registrar at the periphery level, they are appointed under Section 4, 6 and 7 respectively by the State Government/Union territory Administration. The Chief Registrars of Births and Deaths has been declared as the chief executive authority in the respective States/ UTs for implementing the provisions of RBD Act and the Rules and orders made thereunder. The actual work of registration of births and deaths in the field is carried out by the local registrars. There is a wide variation in the registration machinery across the country:

- The Chief Registrars of births and deaths in 17 States and 2 union territories are from the Health Department, in 10 States and 2 union territories are from Planning, Economics & Statistics Department, in 1 State and 1 UT from Panchayat Department and in remaining 2 UTs it is with other Department viz. Local Administration and Revenue Department.
- The district level authorities are mainly divided among District Collectors/ District Magistrate (in 9 States and 1 UT), Chief Medical Officers/ District Medical and Health (11 States and 2 UT), District Statistical/ Planning Officers (in 4 States and 1 UT) and Deputy Director / Assistant Director (Panchayat) in 1 State and 1 UT and in remaining States/ UT are others.
- At Rural level, the registration work is entrusted to the officials of Panchayat Department in 15 States and 3 UTs, Health Department in 7 States and 4 UTs, Revenue Department in 3 States), Education Department in 2 States and Police Department in 1 State and 1 UT.

**5. Inter Departmental Coordination Committees(IDCC):** For effective implementation the provisions of the RBD Act in the States and in order to resolve the operational problems and to sort out the issues of mutual coordination among the various departments engaged in registration work an Inter-Departmental Coordination Committee (IDCC) has been set up in all States / UTs. The State Governments are required to convene the meeting of such committee at least once in a year to formulate the strategies for further improvements in civil Registration system. However, it has been observed that despite persuasion by this office, such meetings have not being convened regularly by the most of the States/ UTs. During 2012, such meetings were held only in six States/UTs namely Bihar, Manipur, Nagaland, Punjab Tamil Nadu and Uttar Pradesh. Such type of Committees i.e. Inter Departmental Coordination committees have also been set up at District and Sub district level also (at Mandal and Taluk level). However, the information on regular convening of below State level meetings has not been received from most of the States. As per the information provided by the Chief Registrars:

- The State of Karnataka has convened the meetings of 52 District Level Coordination Committee (DLCC) and 349 Taluk level Coordination Committees (TLCC) during the year.
- In Maharashtra, such Committees has been set up at various level i.e. district, Block and village level. However the percentage of convening the meetings of such committee is very less. At district level, only 04 districts namely Ratnagiri, Ahmednagar, Nanded and Akola conducted such meetings during the year. The percentage of meetings at Block level is 43% and Village level is 47%. The committees have also been established at Municipal Corporation level in Six Corporations.
- Tamil Nadu has convened 16 District Level meetings during 2012.
- In Himachal Pradesh district and block level committees have been setup with the standing instruction to hold committee meeting frequently. Monthly meetings with the District Registrar (DM & collectors) were held under the Chairmanship of Commissioner and Principal Secretary (Health).

The States of Andhra Pradesh, Assam, Rajasthan, Uttarakhand and Punjab have also convened such meetings during 2012 but specific details not provided.

**6. Penalties:** Section 23 of the RBD Act provides for imposing penalties on defaulting institutions, Registrars and the individuals for non-registration, non-reporting and for negligence or refusal to register any birth or death without any reasonable cause. However, it has been found that very few States have been reported to imposing the penalties, as a means to improve the functioning of the system. As per the information made available, the States of Kerala, Maharashtra and Punjab have imposed such penalties during 2012. The details of which are given below:

**Statement 3: Penalties imposed on Registration Functionaries**

Name of States / UTs	Penalties imposed on	
	No. of prosecutions	No of offences
Kerala	453 (Rs.22,317/-)	630 (Rs. 33050/-)
	<b>Amount collected from defaulter for non / late reporting (in Rs.)</b>	
Punjab	Rural	3,12,766/-
	Urban	1,29,990/-
	Total	Rs. 4,42,756/-
Maharashtra	District Registrars Raigarh and Jalna imposed fine of Rs. 200/and Rs.300/respectively for non-submission of report.	

Few states have initiated several actions on imposing the penalties, details of which are given below:

- **Andhra Pradesh-** District Registrars and Municipal commissioners/ Municipal Health Officers have been authorized to launch prosecution and compounding offences against the defaulters. Instructions were reiterated to exercise their powers.

- **Karnataka-** No prosecution was launched during the year; penalization was avoided through educative, publicity / propaganda and persuasive programmes.
- **Odisha-** District Registrars and Registrar of Births and Deaths have been authorized to prosecute the defaulters in reporting for registration, submission of reports / returns and reporting of false events.

The States of Assam, Bihar, Jharkhand, Nagaland, Manipur, Tripura, Karnataka, Rajasthan, West Bengal, Andaman & Nicobar and Puducherry have not imposed any penalties during the year and furnished **Nil** information. The States of Gujarat, Himachal Pradesh, and Uttar Pradesh has not provided any information on this issue.

**7. Registration of Births and Deaths occurring to Indian Citizens abroad:** The event of births and deaths of Indian citizens occurring abroad are registered by the respective Indian Consulates under the Citizenship Act 1955. The Consulates are statutorily required under Rule 5 of Citizen's (Registration at Indian Consulates) Rules 1956 to send the annual returns of births and deaths of Indian Citizens to the ORGI. Such returns for the year 2012 have been received from 78 missions, covering 12601 births and 1754 deaths. Out of total birth registered at the various missions during 2012, Kuwait alone accounted for 35.5%, UAE 22.4%, Oman 14.3% and Spain 4.0% births. In case of total registered deaths at various missions, Kuwait accounted for 28.6% deaths, UAE 20.4% and Malaysia 10.6% deaths in 2012.

**8. Annual report on the working of the RBD Act:** The Chief Registrars are required to submit an Annual Report on the working of the RBD Act under Section 4 (4) of the Act to the respective State Governments as well as to the ORGI. The statutory Annual Reports for the year 2012 have been received from 30 States and UTs except Chhattisgarh, Goa, J&K, Madhya Pradesh and Lakshadweep.

**9. Inspection of Registration units-** For improvement of registration system in both qualitative and quantitative terms, inspection of registration centers and registration records at regular interval is essential. Specific provisions in this regard have been made under Section 18 of the RBD Act which allows inspection of registration offices and examine the registers kept therein. Regular inspections are required to be done by the office of the Chief Registrar and District Registrars in each States/UTs. Such inspections could have been more meaningful, if organized and conducted frequently within a regular time frame, however, as per the information provided by the States, the inspection of registration centers in the States were irregular and extremely insufficient in most of the States/UTs during 2012. The actual information in respect of number of units inspected is not provided by the majority of the States /UTs, only few States/ UTs have furnished the desired information, the details of which are given below:

**Statement 4: Details of inspection undertaken**

Name of State	Number of Districts Covered	No. of Rural units Inspected	No. of Urban units Inspected
Bihar	17	217	60
Haryana	5	4 28@	6
Karnataka	Not given	2731	-----
Punjab	Not given	118 Block PHC's/ CHC's	101
Rajasthan	Rural & Urban units inspected by the officer/ officials of DSO's. The officers of Chief Registrar's offices also inspected Municipalities and many Gram Panchyat but exact number is not given.		
Manipur	08	54 units	
Puducherry	04	All 40 Units inspected.	
Jharkhand	Not given	35	24

@ Record of 28 registration centers were inspected at Chief Registrar's office.

Other States have furnished the following information regarding inspection:

1. **Andhra Pradesh:** District Registrars have been requested to deploy District Level Programme Officers and Statistical Staff to inspect Registration centers regularly every month.
2. **Kerala:** In rural units, the Performance Audit Teams under the Assistant Director of Panchyat conducted inspection during every quarter. The schedule of inspection is prepared in advance and the report is submitted to the District Registrar. The District Registrar will forward the report to the Chief Registrar with specific remarks. The urban units are to be inspected by the Secretary of the Local Self Government concerned and report submitted to the Chief Registrar.
3. **Tamilnadu:** Regular and periodical inspections by the Officers of the State Head Quarter are being carried out and the feedback of the inspection is also communicated to the District Registrars, Municipal Commissioners and Additional District Registrars for follow up.
4. **Sikkim:** The routine inspections were done by the Chief Registrar's Office.
5. **Punjab:** In order to inspect all registration centers of the district in a year, District registrars have been instructed to ensure inspection of 4 Rural and 2 Urban registration units in a month.
6. **Nagaland:** The District Registrars and Circle Registrars were instructed to carry out inspection to the Registration Units under their jurisdiction. Due to huge number of units, cent percent inspection could not be undertaken during 2012. With the message of birth and death. More campaigns are required to be undertaken in order to create awareness.
7. **Delhi:** Registration centers, zonal offices and major hospitals were inspected from time to time by the officers/ officials of Chief registrar office to examine the working and ascertain the difficulties faced by the public in getting birth / death certificate.
8. **Daman & Diu:** Regular inspection of registration units are carried out in the territory.
9. **Tripura** - No inspections were performed during 2012.

The inspections have also been made by the Officers/ officials of the ORGI and DCO offices from

time to time. The observations found during the inspections were forwarded to the respective States/ UTs for remedial measures.

**10. Training of Civil Registration Functionaries-** In most of the States/UTs, registration functionaries involved in Civil Registration work (i.e. registration of births and deaths) at various levels are from different departments and transferred frequently. Almost all these functionaries perform registration work as an additional work along with other work assigned to them by the respective department. Further, there is a need to impart training at a regular interval to these officials on registration rules, procedures and practices framed under the provisions of the RBD Act and the corresponding State rules due to frequent transfers of these functionaries. As per the details furnished by the States, the following training programmes have been organized in the various States during the year 2012, viz. Andhra Pradesh organized 6 programmes, Mizoram 9 programmes, Haryana 5 programmes, Punjab 29 programmes, Jharkhand 214 block level training programme and 24 district level programmes, Karnataka 210 Training programmes were organized, Rajasthan 24 district level & 60 block level training programmes, Tamil Nadu 7 such training programmes, 6 training programmes in Uttarakhand and Puducherry conducted 1 such programmes during the year. The details of other training programmes are given below:

- **Himachal Pradesh**, one day Training of Trainers (TOT) for Additional District Registrars and other CRS functionaries were arranged at Shimla on 6th December, 2012.
- **Nagaland** Government has conducted training for the Registrars and Notifiers regularly once in a year.
- **Sikkim** arranged reorientation training for the local Registrars.
- **Kerala**, the subject of registration of births and deaths has been included in the various Training Programmes conducted by the Kerala Institute of Local Administration (KILA).

**11. Computerization of Civil registration record/ work-** The information on computerization of Civil registration record and online registration have been furnished by the following States/ UTs-

- **Kerala**- Up to the end of 2012, Civil Registration work in Kerala has been computerized in all Municipal corporations and Municipalities and 978 Rural Registration Units (Gram Panchayats), using “Sevana” Civil Registration Software developed by Information Kerala Mission (IKM). The Civil Registration records prior to date of computerization are being digitized. The certificates in respect of the registers maintained under the traditional system are also issued using the software in computerized units. The legal part of the reporting forms is preserved as Statutory Register in addition to the electronic data.

Under the Hospital Kiosk Project the report of births and deaths are sent to the Registration Unit as electronic data through telephone line from the kiosk functioning in the hospital. The project for online registration of the events in Hospitals has been implemented in 5 Corporations, 39 Municipalities and 65 Gram Panchayats up to the end of 2012. Under this scheme, the report of births and deaths are sent to the registration units as electronic data through telephone lines from the kiosk functioning in the hospital. The electronic report is registered by the Registration unit after verification and certificate issued under Section 12 through the hospital.

- **Punjab**: The State has initiated the procedure of computerization of record of births and deaths.

In first phase, the record of rural area of district Amritsar, Bhatinda and Patiala for the year 2000 to 2008 has been digitized.

- **Daman & Diu:** The work of registration of births and deaths in all rural and urban areas have been computerized .NIC Daman has prepared a uniform software for the UT where data entry work is being carried out at HQ level , a provision for generation of statutory tables is also available.
- **Delhi:** All local bodies have computerized their operations resulting in improvement in the quality of service rendered to the public. All major Government / Private hospitals have been provided the facility of online reporting of birth/ death events, this has speed up the process of reporting and registration of events.
- **Odisha:** Online Registration of Births and Deaths in 44 registration units functioned from 28-10-2010. The Web site for urban Registration is [www.ulbodisha.gov.in](http://www.ulbodisha.gov.in).
- **Puducherry:** All the local bodies are issuing computerized birth and death certificates for the event registered under the Act. In order to cater the needs of the public who requires birth and death certificates of their ancestors, computerization of birth and death record prior to 1979 in Puducherry and Oulgaret Municipalities has been taken up.
- **Gujarat:** Summary reports are being compiled at state level through Form No. 11, 12 and 13 and entered in BADEA (Birth and Death Entry Application) for validation of data entry of Births & Deaths registered at District/Taluka level under BADEA. All tables of birth under the RBD Act 1969 (B1 TO B23) are being generated through BADEA. Out of 8 Municipal Corporation, three Municipal Corporation have computerized Civil Registration System and issue Computerized Birth & Death Certificate. Some of the Municipalities/Nagar Palika and Gram Panchayats also initiated issue of Computerized Birth & Death Certificate.
- **Tamilnadu:** All District offices have been equipped with computers. Computerization of Birth and Death data is done in all corporations, Municipalities and at Taluks. Computerization of Birth and Death data is also done in Town Panchayats. Computerized Birth and Death certificates are issued from all the urban local bodies. In rural areas, computerization of birth and death records have been started from 2008 onwards, using web-based software developed with the support of NIC. The computerizations of birth and death records are done at taluk level and at Primary Health Centre level in the rural areas. The process of Digitization of birth and death records of past 10 years in respect of two million plus cities of Trichy and Coimbatore were taken.
- **Andaman & Nicobar Islands:** New software (BIRDS) for issuance of birth & death certificates has been developed in the territory by the NIC. This software is web based in open source platform and presently installed in the NIC server and accessed through broadband connectivity.

Other States have also taken various measures on computerization of civil registration record but details have not been given in their annual reports.

## **12. Publicity efforts for improving Registration of Births and Deaths:**

**Publicity measures taken by ORGI:** One of the reasons for low levels of registration in the country is the lack of awareness among the general public about the need and importance of registration and lack of procedural knowledge among the registration functionaries. In order to make the public aware about

the need and importance of registration, Registrar General's Office undertook wide spread publicity campaigns through various media such as telecasting video spot through National Network of Doordarshan Kendra's & Private T.V. Channels, Broadcasting the messages on importance of births and deaths through various stations of AIR, advertisement through leading newspapers at the time of school admission, Printing of message on the importance of registration of births and deaths through other means.

**Publicity measures taken by State Governments:** The state governments had also undertaken publicity measures through their own funds by printing of posters, cloth banners, pamphlets, leaflets on the importance of registration of births and deaths. Radio talks were arranged on the importance of registration of births and deaths, advertisements were published in leading newspapers. Arrangements were also made by the state governments for showing the cinema slides and documentary films.

As per the details given by the States, following publicity measures has been taken during the year-

**Andhra Pradesh:** The following measures were taken by the State:

The Commissioner, Family welfare requested to include the Civil Registration of Births and Deaths in the IEC activities of the Family welfare programmes.

The Women and Child Welfare Department issued necessary instructions to all Project Directors to arrange distribution and display of posters at Anganwadi centers and ensure regular monthly reporting from them to village Secretaries.

District Collectors issued instructions to all Tehsildars & Officers and Municipal Commissioner to ensure the display of posters at all public place.

Panel boards, Stickers, Pamphlets on importance of civil registration were printed and supplied to poor performing districts.

**Bihar:** The following measures were taken by the State:

An advertisement on importance of registration of births and deaths was published in Hindi, Urdu and English Newspaper during the year.

The State Government from its own funds telecasted the message from Doordarshan Patna to attract the attention of rural and urban people towards registration

Carried out wide publicity on the importance of registration of births and deaths by putting Stalls, posters, wall hangers etc. in "Melas" like SoanpurMela and ShravaniMela and others in various part of the State.

Messages on the importance of registration of births and deaths through Wall Painting were made in the rural areas of the State.

In order to accelerate the Vital Statistics work and to create the awareness among the public, an descriptive analysis was published in the quarterly report of Directorate of Economics & Statistics namely "Bihar Sankhyaki Darpan".

**Himachal Pradesh:** The following measures were taken by the State:

1339 flex board and wooden board bearing the message on birth and death registration were printed out in the district of Bilaspur, Hamirpur, Mandi, Kullu & Solan and distributed to all Hospitals, Maternity

home and Delivery Center.

**Rajasthan:** The following measures were taken by the State:

To create the awareness among public, slogans on birth and death registration were printed on Prescription slip of Doctors, Immunization Card and Ration Card.

An appeal on the importance of registration of births and deaths were released in local Newspapers by all District Collectors.

Stickers on the importance of registration of births and deaths were distributed among children.

Financial and mobility support from UNICEF has also taken for publicity in the rural areas.

**Karnataka:** The state Government has taken publicity advertisements through various means for improving registration system. Publicity measures have also yielding significant results since the last decade.

**Haryana:** In order to strengthen the civil registration system, during 2012-13 financial assistance of Rs. 11.2 lakh under NRHM (PIP) has been taken for the activities like- Purchase of Laptop/Computer system, Training for Registrars, appointment of Civil Registration Officer/ Assistants/Field Investigators and also for conducting Field visits.

On the request of District Registrars, the Chief Registrar office has arranged funds for preservation of old registers which were in torn condition. NRHM has also provided funds of Rs. 2.00 Lakh during 2012-13 for 8 districts for binding and lamination of old record @ Rs. 25,000/ per district. The districts of Ambala, Bhiwani, Faridabad, Fatehabad, Gurgaon, Hissar, Jhajjar and Jind were provided such assistance.

**Kerala:** Permanent notice boards were exhibited in front of all registration units. Cinema Slides were exhibited in almost all cinema Theaters. Messages on Civil Registration System were printed in Panchayat department publication 'Panchayat Raj', a monthly magazine of the state. The details of services given and the duties of the public under civil registration System has been included in the 'Citizen Charter'.

**Maharashtra:** The following measures were taken by the State

In order to register all birth events that are being immunized, a column has been included in immunization card "as to whether the event has been recorded in Gram Panchayat record or not" if yes, then date and registration number should entered in the Immunization card.

To abridge the gap of registration in tribal and inaccessible area, ASHA's are appointed as notifier under NRHM. They have also given training for birth and death registration.

**Nagaland:** The Department has been taking various steps for publicizing on the importance of registration of births and deaths; these were exhibited to the public in the form of posters, pamphlets, wall hangers, bill board etc. with the message of birth and death.

**Punjab:** The following measures were taken by the State:

A slogan on timely registration of birth has been incorporated in the immunization cards printed by the Health Department.

Regular announcements on the importance of registration of births and deaths have been made through

public address system of Village Gurdwaras. Paramedical staff also spread awareness in immunization camps during their routine visits.

Advertisement was published in leading Newspaper apprising the general public about the special permission of registration of name of the child in the time barred cases.

Production of birth certificate at the time of entering the name of child on ration card has been compulsory. A stamp in this regard also placed by the Department on the Ration Card.

The subject of birth and death registration was also discussed in live Programmes telecasted by Doordarshan (PB) on Quarterly basis. During 2012, four such talks were given by the local Radio of Jalandhar city. The queries of general public were also answered in these programmes.

Wall painting at Sub Centers and villages falling under the sub center were done depicting the messages on birth and death registration.

1300 Sun flex boards were also displayed in all District /Divisional hospitals and CHC's.

**Mizoram:** Adequate publicity was made on the importance of civil registration. Advertisements on importance of registration of births and death were displayed in the daily Newspapers and Periodicals in local language. In some localities, Non-Government Organization called 'Young Mizo Association' and Village Council took up the responsible role of informing the public on the importance of reporting the birth and deaths events

**Sikkim:** Displayed video telecast through local television all over Sikkim. Verbal communication methods were also applied for creating awareness among public.

**Tripura:** Publicity and other promotional activities were made in Health Fair and different Health Camps. Message on importance of registration of births and deaths was printed on OPD ticket of the government institutions.

**Uttarakhand:** Slogans on the importance of registration of births and deaths pasted on roadways buses. Advertisement on importance of registration of births and deaths also released in local leading Newspapers. Display board installed in 2310 registration units.

**Andaman & Nicobar Islands:** Advertisements for the benefits of registration of births and deaths was published in local papers regularly to acquaint general public with the provision of RBD Act, 1969.

**Chandigarh:** 300 hoarding boards on the importance of registration of births and deaths were installed in different places – Hospitals, Dispensaries, Bus Strands, Railway Station, Aanganwadi Centers and Cremation grounds. To educate the public regarding timely registration of birth and death and the type of particulars to be furnished, the Department is showing one 35mm Hindi film in all local cinemas on rotation. A 16mm film is also exhibited in rural areas.

**Delhi:** The following measures were taken:

Advertisement on the importance of registration of births and deaths are being released in leading Newspapers on the important occasions like World Population Day & Children's day. The other advertisements released by the Directorate also contain the message pertaining to birth and death registration.

NGO's and other voluntary organizations were involved in the propagation of benefits of registration and identification of unregistered cases if any in slum areas.

A Citizen's Charter for registration of births and deaths has been implemented and the issuance of birth/death certificate has been covered under e-service Level agreement (SLA) to facilitate the public.

**Puducherry:** Adequate publicity was made on the importance of Civil Registration. Advertisements were released on the importance of registration of births and deaths in leading dailies on National Days.

### **13. Issuance of birth and death extracts / certificates:**

Under the provision of Section 12 of the RBD Act, 1969 the Registrar are required to give an extract of prescribed particulars from the register relating to such birth or death to the person free of charge to the informant, who gives information under Section 8 and 9 of the Act. In addition to that, under Section 17 of the Act, the extract relating to birth or death has also been issued to the person asking for it on the payment of prescribed fee.

Most of the States / UTs are not furnishing the desired information on issuance of extract/ certificate under Section 12 and 17 of the Act. For the year 2012, only four States/ UTs namely Haryana, Kerala, Uttar Pradesh and UT of Puducherry have furnished the requisite information. The State of Kerala has not furnished the breakup of birth & death certificate under Section 12 of the Act, although breakup is given under Section 17 of the Act. The UT of Puducherry has not provided the details separately for Section 12 & 17 of Act. The information in respect of issuance of extract/certificate is given below:

**Statement 5: Details of issuance of birth/death certificates**

State	Total Certificates/Extract issued			Under Section 12		Under Section 17	
	Birth	Death	Total	Birth	Death	Birth	Death
Haryana	1027962	520291	1548253	453656	138894	574306	381397

### **CHAPTER – III**

#### **A BRIEF ANALYSIS OF DATA ON REGISTERED BIRTHS, DEATHS AND INFANT DEATHS**

3.1 Births and deaths are the two most important vital events in the life of an individual and for the society as a whole. Based on the data collected under the Civil Registration System on registered births and deaths, this Chapter presents the trend in the level of registration, vital rates and other related indicators, at the State and National level. To get an idea as to the coverage of Civil Registration in the country, the data generated from the Civil Registration System has been compared with corresponding estimates thrown up by the Sample Registration System. However, while interpreting the two statistics it should be borne in mind that data under Civil Registration is based on place of occurrence and Sample Registration System is by the place of usual residence of mother. It will not be out of place to mention that although the registration data continues to be deficient due to not reporting of the events for registration or not being registered, and also due to non-reporting of the registered events to the Districts Registrar's office in time by the local registration units, the silver lining is that the overall level of registration across the States / Union Territories (UTs) largely show an upward trend.

3.2 Statement 5 gives the number of registration units along with the level of reporting at the national level and across the States and Union Territories by rural and urban place of occurrence of the event in 2012. Level of reporting indicates how many registration units from those within a State / UT submitted monthly returns of registered births and deaths to the District Registrar's Office during the year. Expressed as percentage, it helps in reviewing the registration system and defining measures that would be necessary to improve registration levels across the country.

3.3 It may be seen from the Statement that nearly 95.2 per cent of the registration units at national level reported monthly returns of registered births and deaths to the District Registrar's Office during 2012. Such reporting level by rural and urban registration units is about 95.2 and 97.5 percent respectively. These figures exclude information from Bihar, Chhattisgarh, Jammu & Kashmir, Jharkhand, Odisha and Uttar Pradesh due to non-receipt of returns during the year.

3.4 Among the States, cent-per-cent level of reporting from both rural and urban areas has been reported from 8 States viz. Goa, Gujarat, Haryana, Kerala, Maharashtra, Punjab, Sikkim, Tripura and West Bengal. It is interesting and heartening to note that all Union Territories have had cent-per-cent level of reporting during the year.

**Statement 6: Number of registration units and level of reporting by place, India, States and UTs, 2012**

Sl. No.	India / State / UT	Registration units (Number)			Level of reporting (%)

2011	21836920	5735082
2012	21951519	5850176

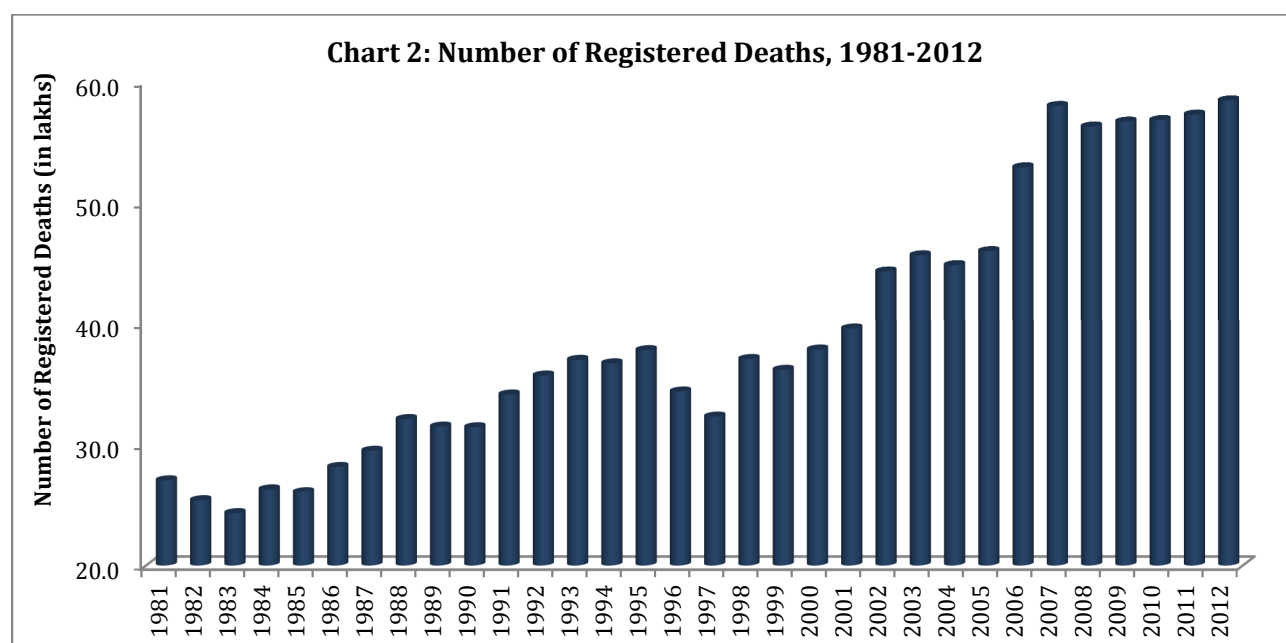

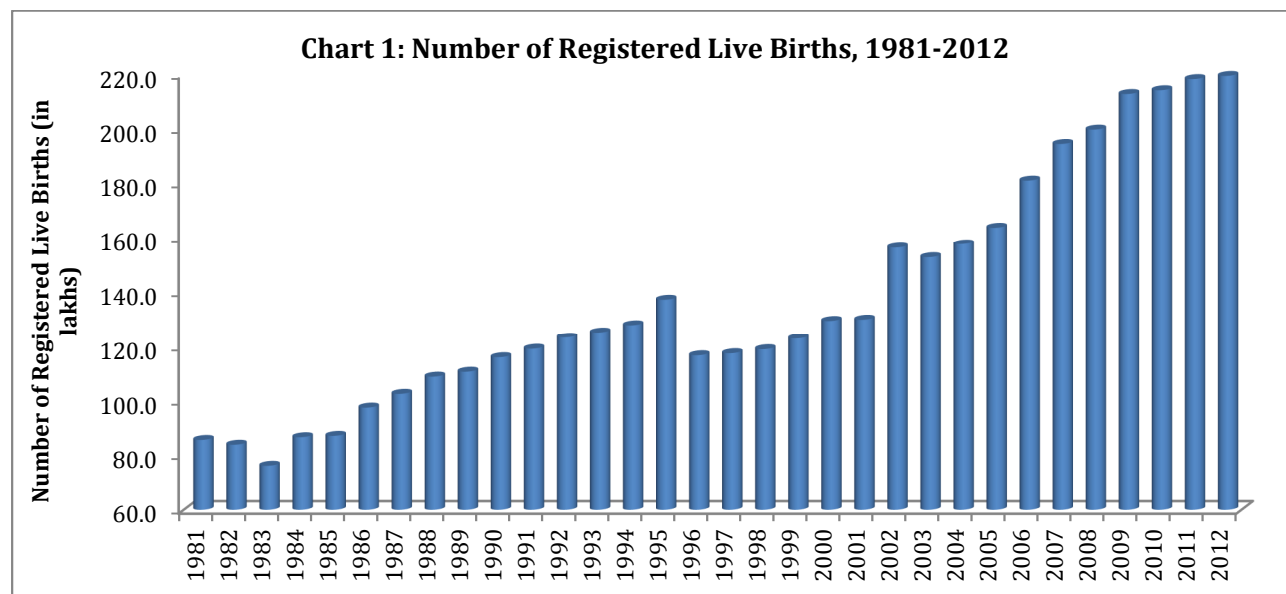

Notes:

1. The figures are based on the data made available by the States/UTs.
2. For the period 1981 to 2000, total registered births/deaths of States/Union Territories exclude data for Assam from 1981 to 1987 & 1990 to 1994, for Bihar from 1997 to 1999, for Kerala of 1983, for Meghalaya from 1984 to 1994, for Sikkim from 1982 to 1987 and of 1989, for Uttar Pradesh of 1983 and from 1996 to 2000, for Uttarakhand of 2000, for West Bengal of 1982 & 1985, for A&N Islands 1981 to 1982, from 1987 to 1988 and from 1991 to 1992 and for Lakshadweep of 1982.
3. In 2001, total registered births/deaths of States/Union Territories exclude data from Assam, Uttar Pradesh and Uttarakhand.
4. Total registered births and deaths of States/Union Territories do not include data for Uttarakhand from 2002 to 2003, Tripura for 2005 and 2007-2009 and Jammu & Kashmir for the year 2012.
5. The registered births/deaths have been taken from the Annual Reports of the Chief Registrars and in its absence from the data provided by the Chief Registrar's office.

3.6 Statement 7 reveals that there is an absolute increase in the number of registered births and deaths over the period 1981 - 2012. The number of registered births has gone up from 8.56 million in 1981 to 21.95 million in 2012 - an increase of 157%. Such increase in the number of registered deaths, from 2.70 million in 1981 to 5.85 million in 2012, is to the tune of 116%. However, disaggregated to reveal year to year change in the registered births and death, the pattern does not reveal a continuous increasing trend. Whereas, sizable decline in the number of registered births and deaths between two consecutive years is largely due to incomplete reporting by the local registration units of all registered

events to the Districts Registrar's office, such increase may be due to special registration campaigns undertaken by the States / UTs. The decline in absolute number of registered deaths at the national level – from 5.80 million in 2007 to 5.64 million in 2008, was due to incomplete reporting from some of the major States namely, Andhra Pradesh, Bihar, Chhattisgarh, Jammu & Kashmir and Uttar Pradesh. Chart 1 and 2 present the number of registered births and deaths from 1981 to 2012.

3.7 The number of registered births, deaths and infant deaths for States and Union Territories for the period from 2003-2012 are presented in Statement 8, 9 and 10 respectively.

**Statement 8: Number of registered births by States/ Union Territories, 2003-2012**

### 3.8 Sex-wise Distribution of Registered Vital Events, 2012

Sex	No. of Registered Births	%	No. of Registered Deaths	%
Male	10160507	52.4	3285733	58.6
Female	9238820	47.6	2320081	41.4
Person*	19399327	100.0	5605814	100.0

\*: Does not include the cases of sex not reported, so does not match with total registered deaths.

3.8.1 Chart 3 on sex wise distribution of registered births reveal that share of female registered births is about 4 per cent short of registered male births. The figures exclude Bihar, Jammu & Kashmir and Lakshadweep due to non-receipt of information on gender wise registered births during 2012.

3.8.2 On the other hand, in case of death registration, the chart 4 shows the share of male registration is about 18 per cent more than female. These figures have been arrived after excluding the incomplete figure of Bihar, Jammu & Kashmir and Lakshadweep.

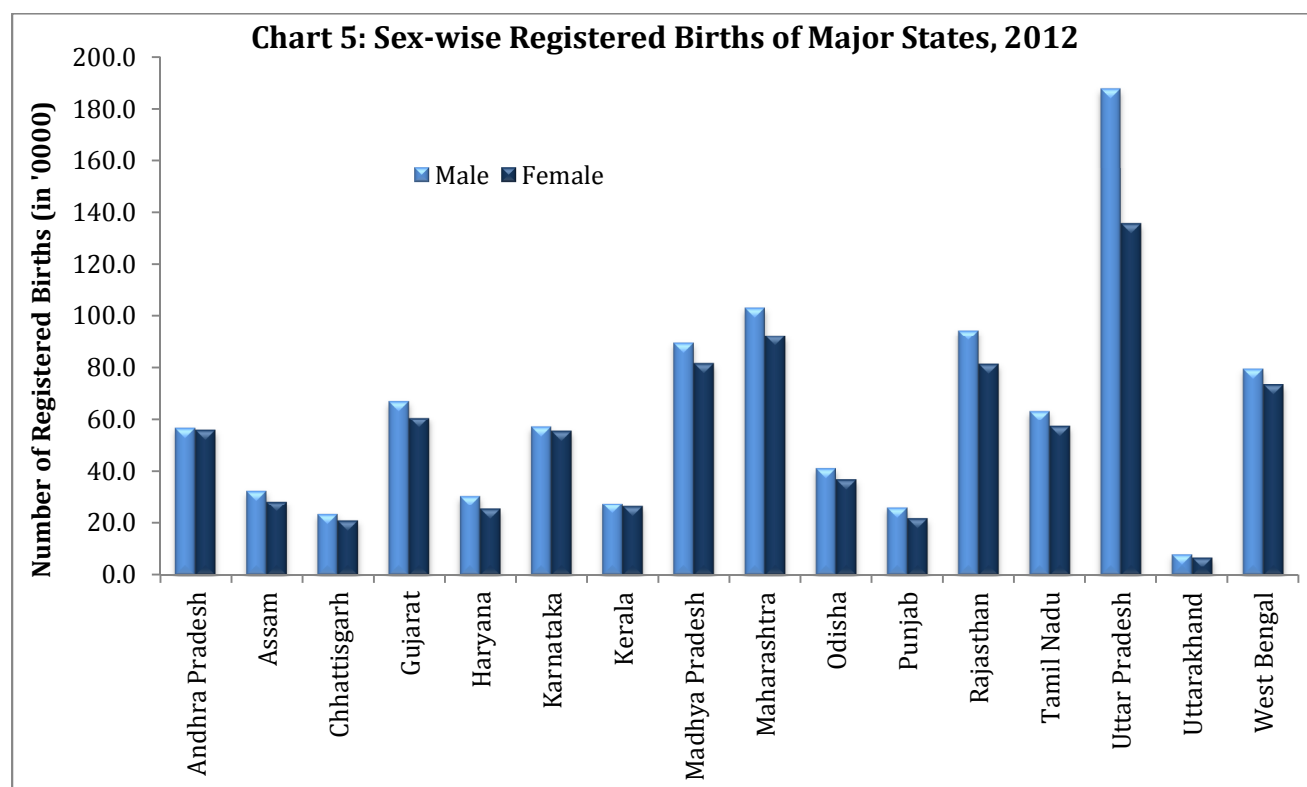

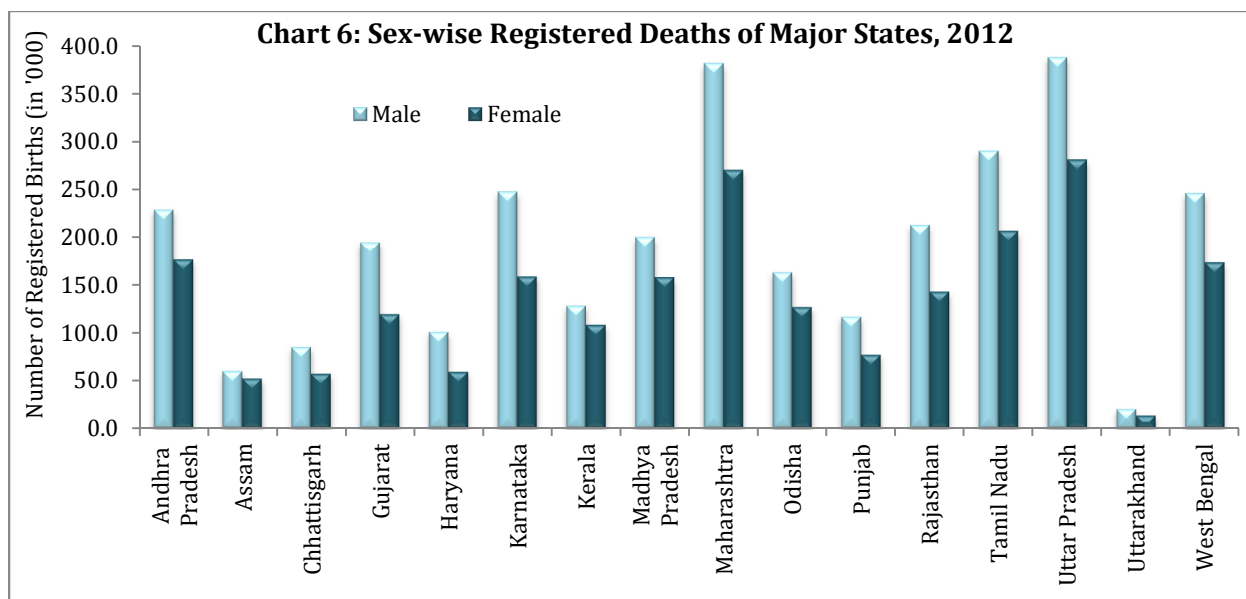

### 3.9 Sex-wise Distribution of Registered Vital Events of Major States

3.9.1 Chart 5 and 6 respectively shows the sex-wise distribution of registered births and deaths for the major States. Sex-wise distribution of birth reveals that the share of male registration is more than the female in almost all of these major States. This gap is much wider for Maharashtra, Madhya Pradesh, Rajasthan and Uttar Pradesh. Similar pattern can also be seen in case of death registration. State-wise figures have been appended in Statement 11 below.

**Statement 10: Sex-wise Registered Births and Deaths of Major States (in'000), 2012**

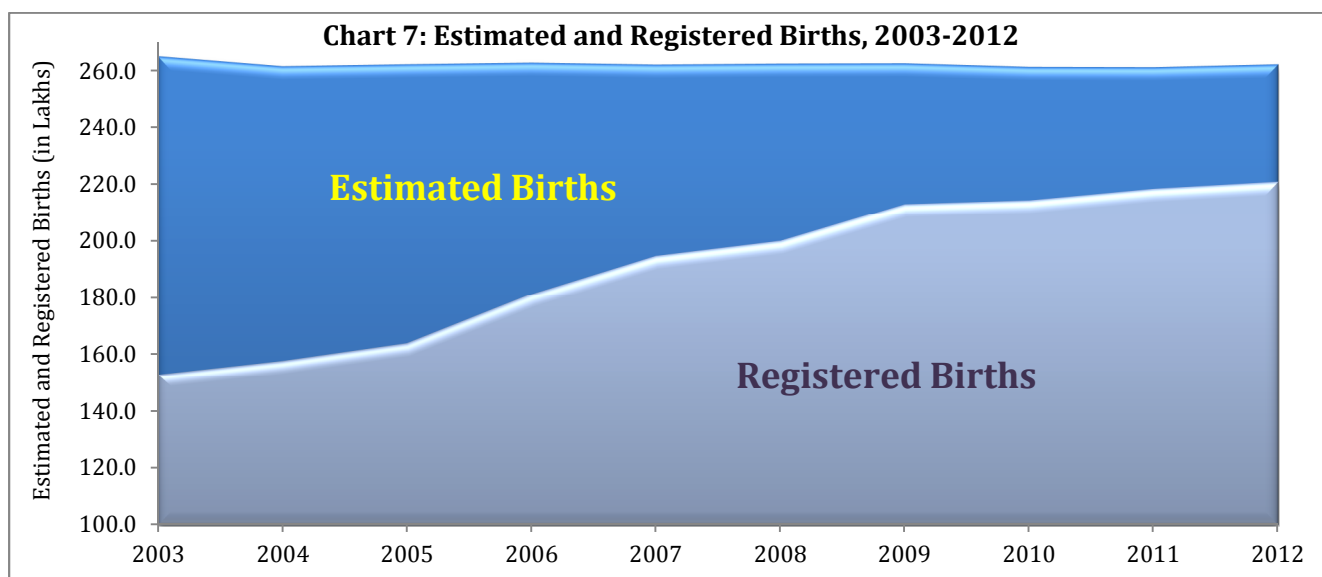

Sl. No.	States	Registered Births		Registered Deaths	
		Male	Female	Male	Female
1.	Andhra Pradesh	565.6	557.3	229.2	176.7
2.	Assam	327.3	285.3	59.6	52.1
3.	Chhattisgarh	235.3	210.5	84.7	56.8
4.	Gujarat	671.0	605.4	195.2	120.0
5.	Haryana	308.1	256.2	101.5	59.1
6.	Karnataka	570.4	554.1	247.8	159.3
7.	Kerala	278.5	265.9	128.8	108.8
8.	Madhya Pradesh	894.7	815.8	200.9	158.4
9.	Maharashtra	1032.9	923.4	381.8	270.0
10.	Odisha	413.5	370.6	163.6	127.4
11.	Punjab	259.3	218.9	117.2	76.6
12.	Rajasthan	944.4	813.3	213.5	143.5
13.	Tamil Nadu	633.0	572.1	289.7	207.2
14.	Uttar Pradesh	1878.0	1359.0	387.9	280.9
15.	Uttarakhand	80.2	67.9	20.1	13.6
16.	West Bengal	794.7	735.6	246.2	173.8

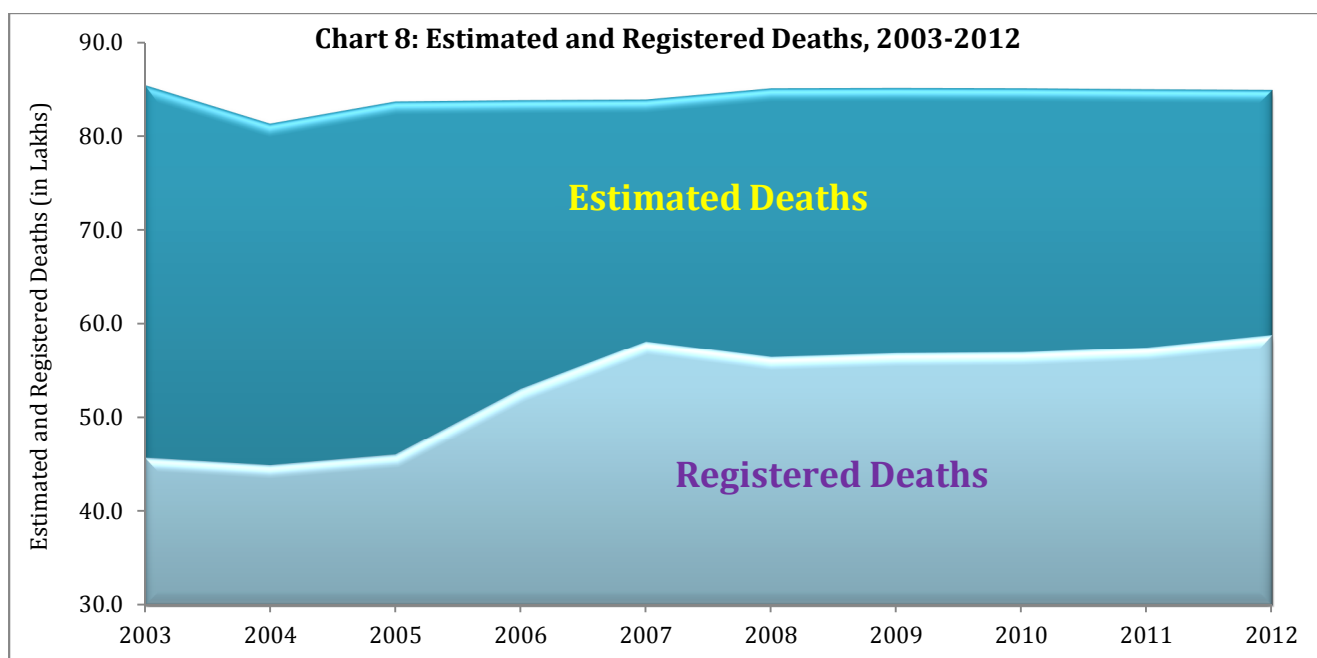

### 3.10 Distribution of registered births and deaths vis-à-vis estimated births and deaths for the period 2003-2012

3.10.1 The time series data on registered births and deaths for the years 2003 to 2012 reveals a significant growth in coverage of registration. Share of birth registration has crossed the level of 80 percent and has reached to 84.4 percent during 2012 which is good indication for the system of Civil Registration. In case of death registration, this share has been reduced during 2008-2009 as compared to 2007 due to less reporting of registered death events from some of the major States. However in 2012, death registration has reached 69.3 percent. During 2012, out of the total 26.2 and 8.5 million estimated births and deaths, 21.9 and 5.8 million births and deaths respectively have got registered during 2012.

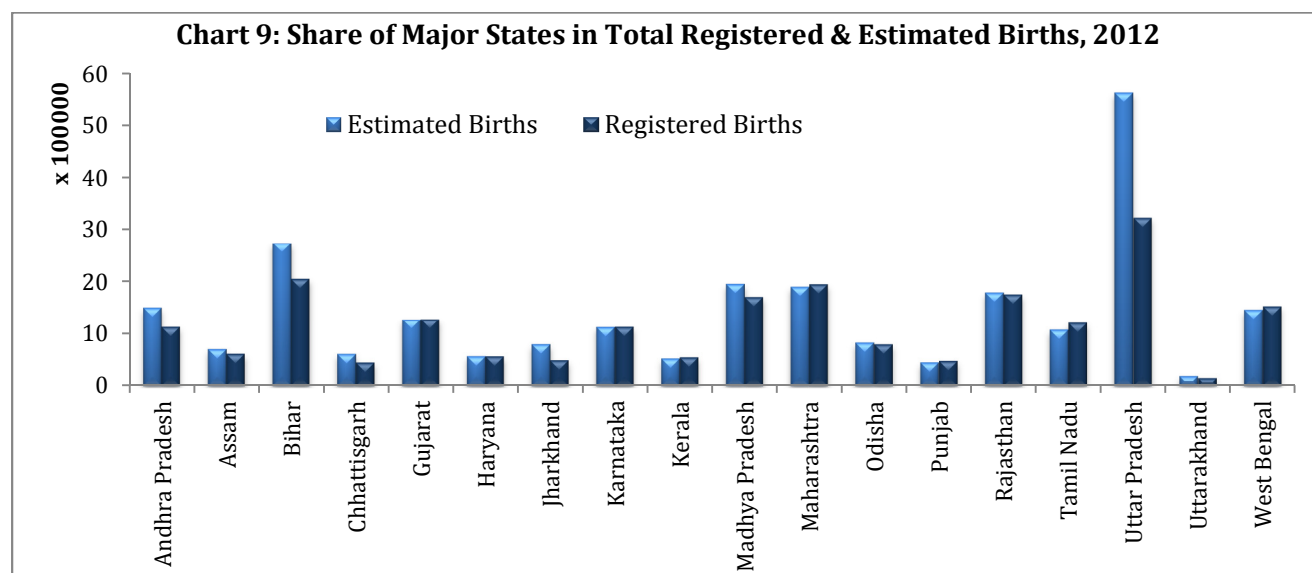

### 3.11 Distribution of estimated and registered events in Major States

**Statement 11: Total Registered and Estimated Births & Deaths of Major States, 2012**

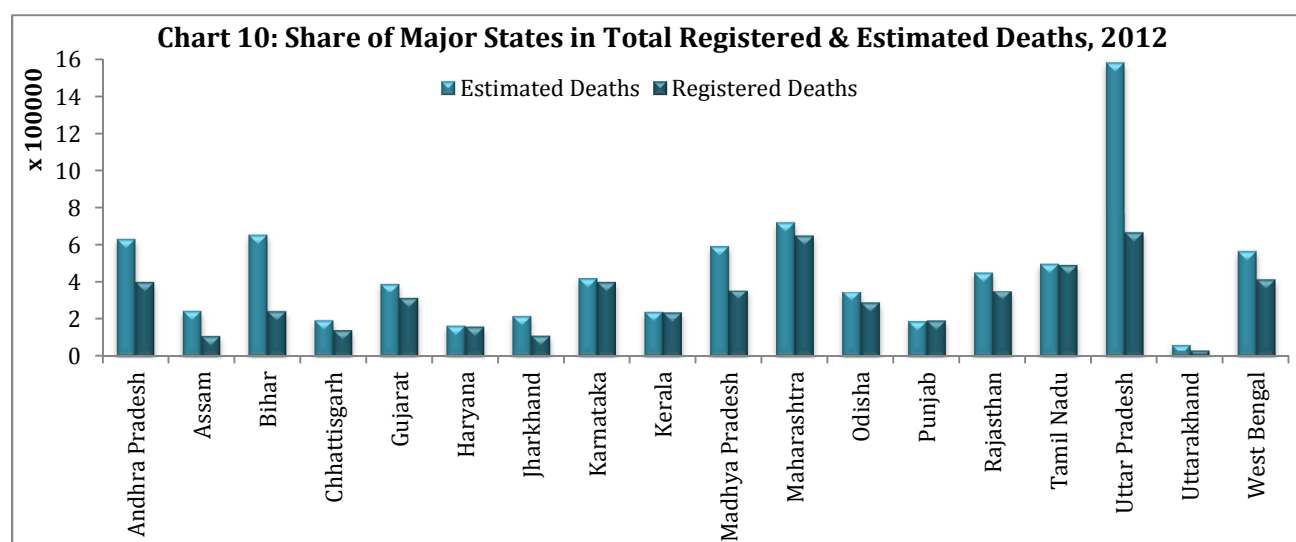

Sl. No.	States	Estimated Births	Registered Births	Estimated Deaths	Registered Deaths
1.	Andhra Pradesh	1500520	1122879	634506	405909
2.	Assam	699098	612576	245461	111676
3.	Bihar	2754959	2058637	656416	243466
4.	Chhattisgarh	605028	448554	195091	142123
5.	Gujarat	1267308	1276330	396409	315236
6.	Haryana	561470	564280	166362	160633
7.	Jharkhand	791635	489953	217940	112814
8.	Karnataka	1114237	1124490	427626	407015
9.	Kerala	519742	544388	240686	237615
10.	Madhya Pradesh	1961218	1710508	597213	359342
11.	Maharashtra	1903970	1956286	722591	651731
12.	Odisha	820358	790648	350404	291027
13.	Punjab	446520	478176	190964	193882
14.	Rajasthan	1793575	1757693	457050	356946
15.	Tamil Nadu	1067631	1205092	503215	496876
16.	Uttar Pradesh	5628672	3237346	1581780	668780
17.	Uttarakhand	187424	148078	61799	33654
18.	West Bengal	1458580	1530332	570749	420014

3.11.1 In the analysis, States having population less than a million have not been taken into consideration. On comparison of estimated and registered births, it is found that there is significant gap in estimated and registered births in Andhra Pradesh, Bihar, Chhattisgarh, Jharkhand and Uttar Pradesh. The States of Maharashtra, Tamil Nadu and West Bengal have registered births more than estimated births. This may be partly due to better medical facilities available in these States as compared to neighboring States. Chart 9 shows the distribution of estimated and registered births respectively in major States.

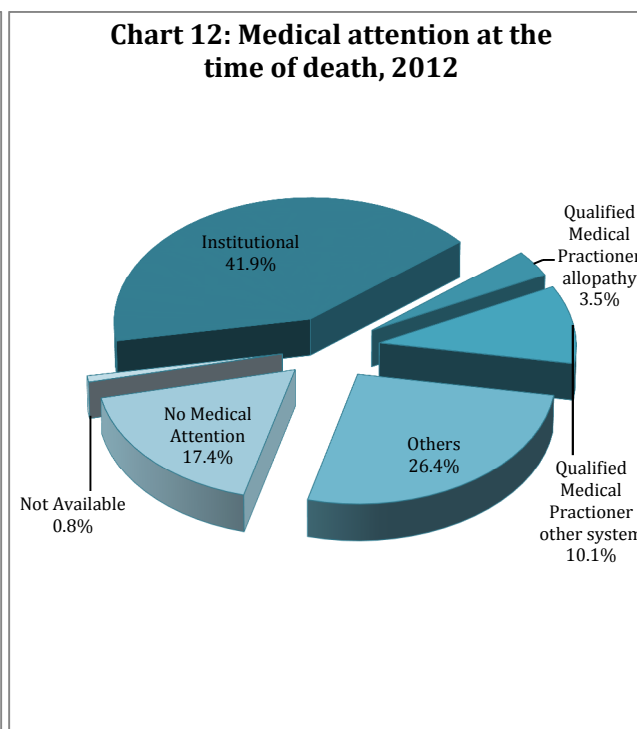

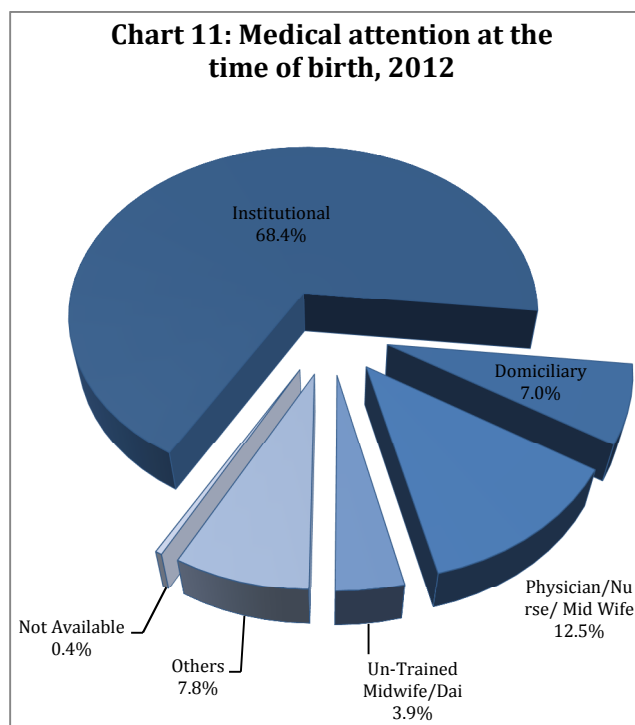

3.11.2 On comparison of estimated and registered deaths, it is found that there is significant gap in estimated and registered deaths in Andhra Pradesh, Assam, Bihar, Chhattisgarh, Jharkhand, Madhya Pradesh, Uttar Pradesh, Uttarakhand and West Bengal. Death registration in major States such as Assam, Bihar, Chhattisgarh, Jammu & Kashmir, Jharkhand, Madhya Pradesh, Uttar Pradesh, Uttarakhand and West Bengal need to be improved. Chart 10 shows the distribution of estimated and registered deaths respectively in major States.

## 3.12 Medical attention received at the time of birth and death

3.12.1 The data on live birth by type of medical attention received at the time of delivery has been reported from 22 States/UTs and the combined distribution of medical attention received at the time of birth of these States/UTs has been presented in Chart 11. Chart 11 shows that majority of live births have been occurred in an institution, either in Government or private hospitals. Institutional births occurred in about 68% of cases, 12.5% of the cases were attended by the Physicians/Nurse/Midwife and about 7% of registered births were domiciliary in the year 2012. Other than these, in spite of having enough better medical facilities about 4% of the events are still attended by untrained Midwife/Dai/others.

3.12.2 Chart 12 represents the distribution of medical attention, received by the deceased at the time of death on the basis of data received from 21 States/UTs. It is evident from Chart 12 that 42% of the total registered deaths have occurred in institutions which is on higher than that of other places from where the deceased had received medical attention. About 10% of the total registered deaths during 2011 have received medical attention from qualified allopathic professional and 17.4% of deceased did not receive any medical attention at the time of death.

## 3.13 Infant Deaths

3.13.1 Statement 12 presents the infant deaths registered by place of occurrence (Rural /Urban) of the event for the year 2012. It may be observed that share of rural area is only 28.6% and urban area is 71.4% in total infant deaths registered during the year. Non registration of infant deaths in rural area is

a cause of concern which may be due to non-reporting of infant deaths to the Registrars especially domiciliary events. This figure is exclusive of returns of Bihar, Chhattisgarh, Jammu & Kashmir, Jharkhand and Uttar Pradesh because the information on registered infant deaths for the year 2012 has not been received from these 5 States. Share of infant deaths to total registered deaths is more in urban area as compared to rural area. Statement 13 gives the percentage distribution of sex wise infant deaths which shows that female infant deaths are reported more than male infant deaths.

**Statement 12: Percentage distribution of registered infant deaths by place of occurrence, 2012**

Place of occurrence	No. of Registered Deaths	No. of Registered Infant Deaths	% share of registered Infant Deaths by place of occurrence	% of Registered Infant deaths to total registered deaths
<b>Rural</b>	3273688	45636	28.7	1.4
<b>Urban</b>	2576488	113424	71.3	4.4
<b>Total</b>	5850176	159060	100.0	2.7

**Statement 13: Percentage distribution of infant deaths by sex, 2012**

Sex	No. of Registered Deaths	No. of Registered Infant Deaths	% of Infant deaths to total registered deaths
<b>Male</b>	3285733	90229	2.7
<b>Female</b>	2320081	68794	3.0
<b>Person*</b>	5850176	159060	2.7

\*: Includes the cases of sex not reported, so does not match with the addition of male and female.

### 3.14 Still Births

3.14.1 The birth of a baby that has died in the womb after having survived through at least the first 28 weeks of pregnancy i.e. a still birth occurs when a fetus has died in the uterus. Still birth also known as fetal death has been defined as '*death prior to the complete expulsion or extraction from its mother of a product of human conception, irrespective of the duration of pregnancy and which is not an induced termination of pregnancy. The death is indicated by the fact that after such expulsion or extraction, the fetus does not breathe or show any other evidence of life, such as beating of the heart, pulsation of the umbilical cord, or definite movement of voluntary muscles. Heartbeats are to be distinguished from transient cardiac contractions; respirations are to be distinguished from fleeting respiratory efforts or gasps.*'

3.14.2 Statement 14 presents still births registered by place of occurrence (Rural /Urban) of the event for the year 2012 and it may be observed that in total registered still births, share of rural registered births is only 28.0% which may be due to poor netting of still births in rural areas. In urban areas, this share is about 72.0% due to better netting of still births from medical institutions. Non registration of still births in rural area is a cause of concern. This total still birth is based on registered events from 26 States/UTs. State-wise registered still births has been depicted in Table 4.

#### Statement 14: Still Births registered during 2012

Place of occurrence	No. of Registered Still Births	% share of registered still births by place of occurrence
<b>Rural</b>	27472	28.0
<b>Urban</b>	70700	72.0
<b>Total</b>	98172	100.0

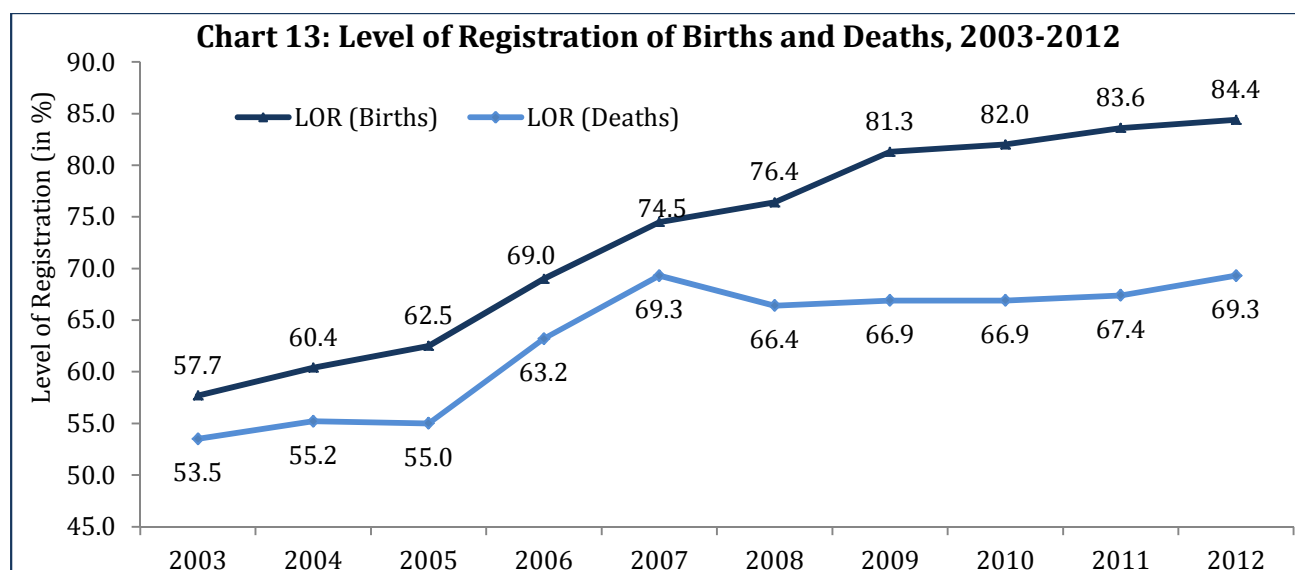

### 3.15 Analysis and Findings

#### 3.15.1 Level of Registration (LOR)

3.15.1.1 The level of registration, defined as the percentage of registered births/deaths to the births/deaths estimated through SRS, determines the performance level of a State / Union Territory in respect of registration of births and deaths. In the absence of reliable estimates of number of births and deaths on a year to year basis from any other source, the number of events as revealed from SRS is used to calculate the level of registration. The level of registration so calculated is very high for some of the smaller States/Union Territories either due to the lower estimates of vital events than the actual and due to the fact that SRS estimates of vital events are based on the place of usual residence while events are registered at the place of occurrence irrespective of the place of residence.

3.15.1.2 In the absence of number of registered events of Jammu & Kashmir for the year 2012, the same for the year 2011 has been used for the calculation of level of registration for the year 2012. This has been done to ensure that the level of registration for the country as a whole for the year 2012 is not devoid of non-reporting of registration data by the State.

3.15.1.3 The levels of registration of births and deaths for India and States/UTs for the period 2003 to 2012 are presented in Statements 15 and 16 respectively. The level of registration of births has increased to 84.4 percent in 2012 from 57.7 percent in 2003 i.e. in last 10 years an increase of about 27 per cent has been shown in birth registration. The level of registration of deaths has also increased to 69.3 percent in 2012 from 53.5 percent during the corresponding period. Chart 13 depicts the trend of level of registration of births and deaths from 2003 to 2012. The level of registration for births has recorded sharp exponential increase after 2005 and has shown consistent improvement over the years. However, the existing gap of about 16 percent in case of registration of births and about 31 percent for registration of deaths at all India level remains a cause of concern. In order to universalize the registration of events, a mission mode approach is required especially in the poor performing States.

3.15.1.3 Statement 15 reveals that the States/UTs continue to function at different levels of registration efficiency during 2003-2012. The level of registration of births in some States is highly erratic even after more than 40 years of enactment of the Registration of Births and Deaths Act, 1969.

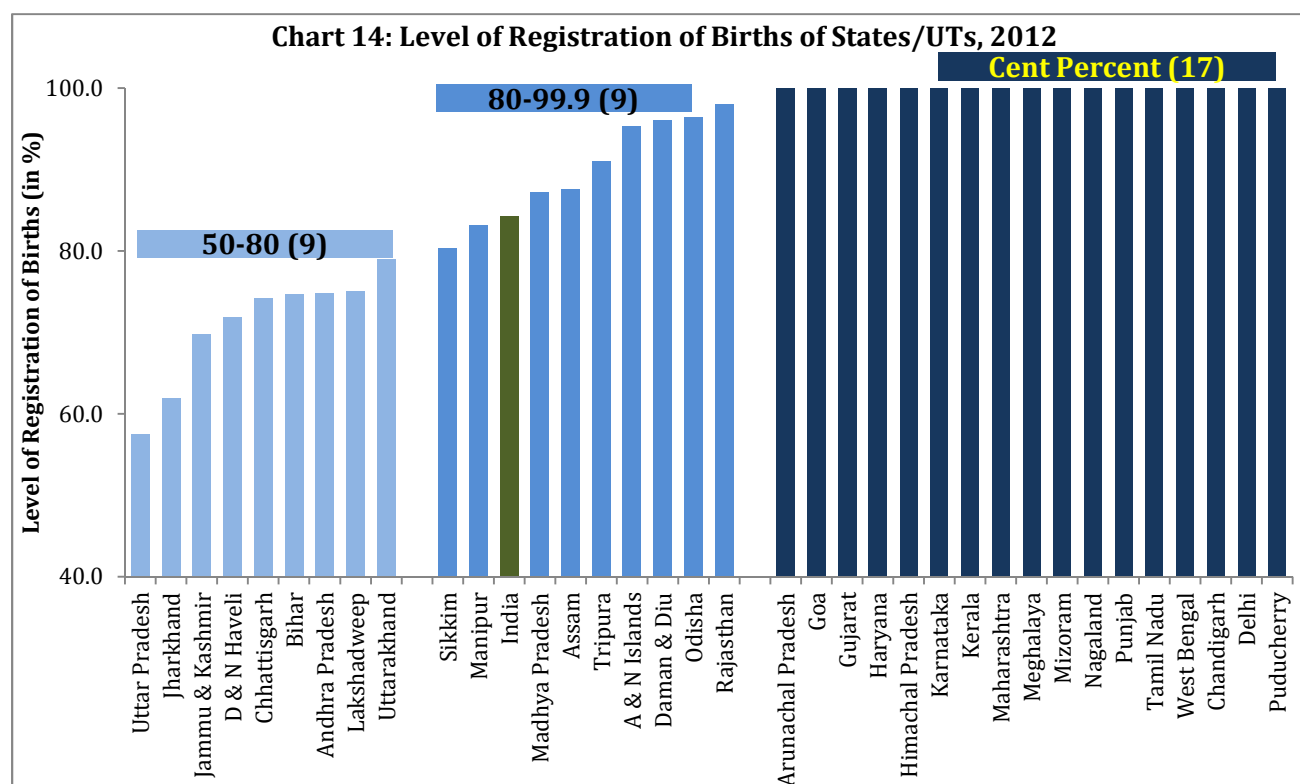

**Statement 15: Level of Registration of Births, 2003-2012**

3.15.1.4 Chart 14 portrays the level of registration of births for India and States/UTs for the year 2012. 17 States/UTs namely Arunachal Pradesh, Goa, Gujarat, Haryana, Himachal Pradesh, Kerala, Maharashtra, Meghalaya, Mizoram, Nagaland, Punjab, Tamil Nadu, West Bengal, Chandigarh, Delhi and Puducherry have recorded cent percent registration of births in 2012.

3.15.1.5 7 States/UTs namely, Himachal Pradesh, Kerala, Mizoram, Nagaland, Chandigarh, Delhi and Puducherry have maintained their level of registration of births as cent percent since last 10 years. 22 States/UTs have recorded their level of registration of births above the level of 90 per cent. 24 States/UTs have recorded their level of registration of births higher than the National level and on the other side, this number is 11. Statement 5 shows that the States of Sikkim, Tripura and the UT of A & N Islands, D & N Haveli, Daman & Diu and Lakshadweep where the level of reporting is cent percent, the level of registration of birth has not achieved the target of cent percent which may be due to less registration of birth events/differences in the actual and projected Mid- Year Population.

3.15.1.6 Statement 16 shows that the level of registration of deaths in the country and the States. In 2012, Goa, Mizoram, Punjab, Delhi, A & N, Chandigarh, Puducherry and Sikkim are the only States recording cent percent registration of deaths followed by the States of Tamil Nadu, Kerala, Haryana, Himachal Pradesh, Nagaland, Karnataka, Daman & Diu and Maharashtra reporting more than 90 percent registration of deaths. The Union Territories of Chandigarh, Delhi and Puducherry have maintained cent percent level of registration of deaths during last 10 years. 23 States/UTs have recorded their level of registration of deaths higher than the National level and on the other side, there are 12 States/ UTs. Chart 15 depicts the level of registration of deaths for India and States/UTs for the years 2012.

3.15.1.7 Statement 15 presents the distribution of major States (with population 10 million and above as per 2011 Census) by their level of registration of births and deaths. The major States have been categorized into 5 groups as per their level of registration of births and deaths for the year 2011 and 2012.

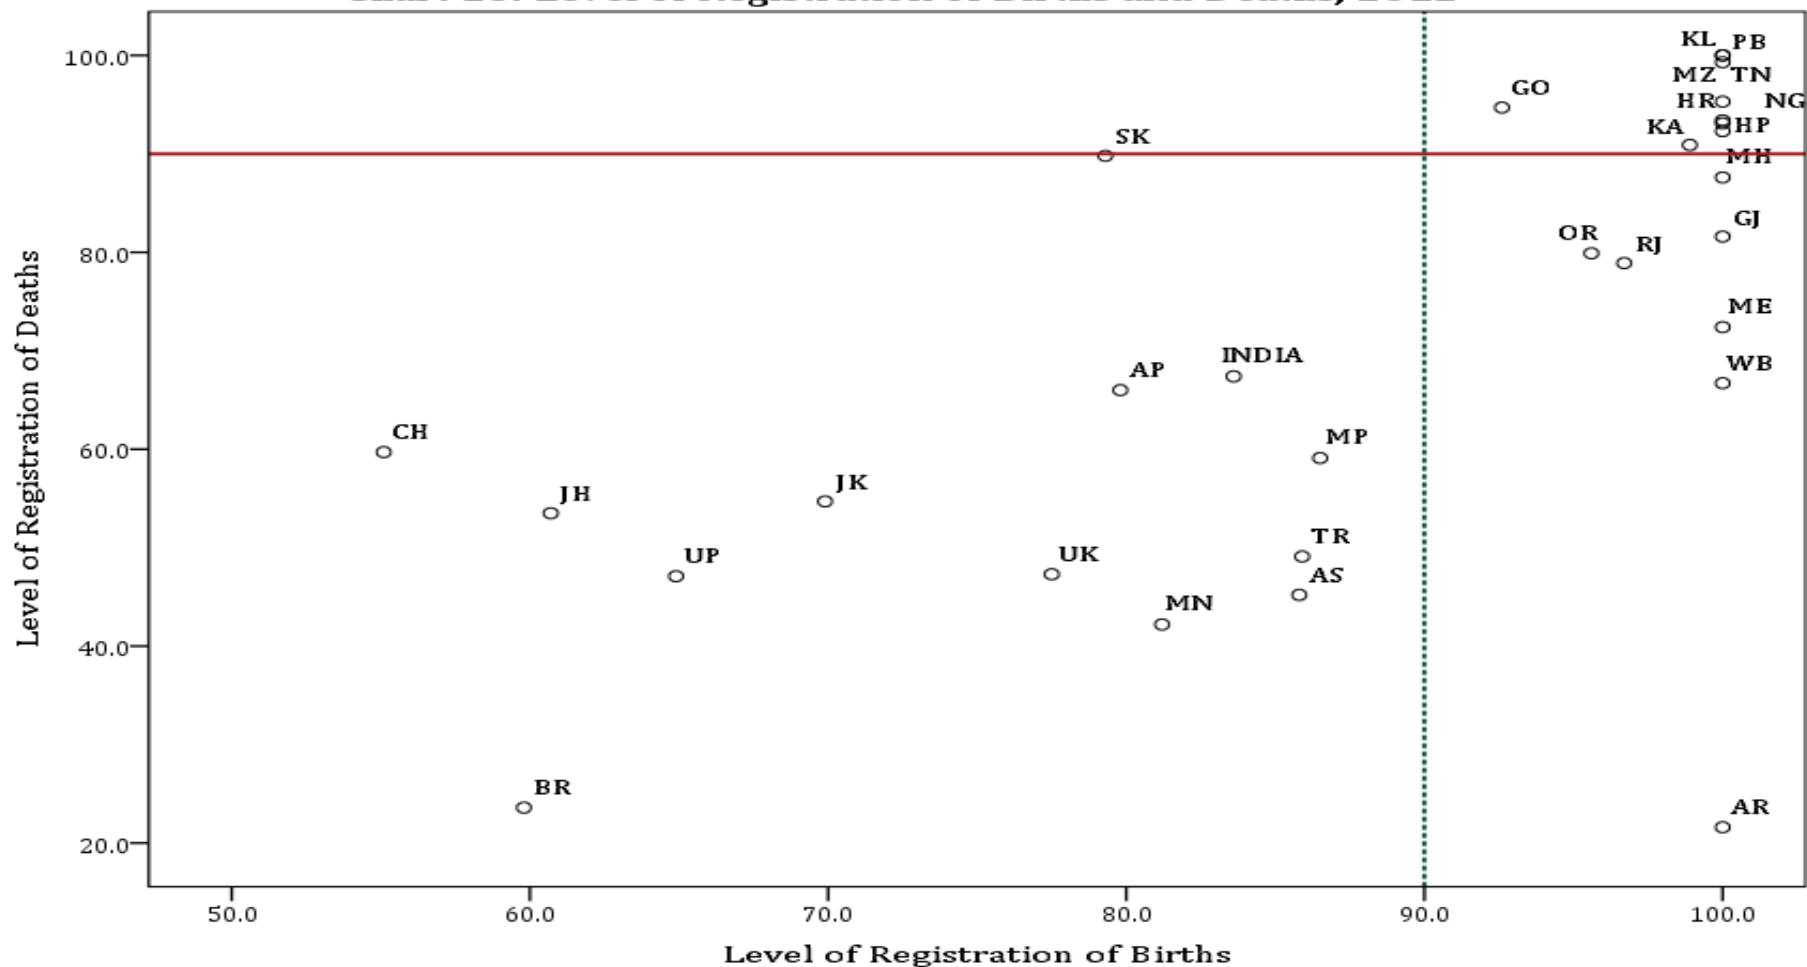

**Statement 15: Major States (Population above 10 million as per 2011 Census) classified by their level of registration, 2011 and 2012**

Level of Registration	2011		2012	
	Births	Deaths	Births	Deaths
<b>Above 90</b>	10 States (Gujarat, Haryana, Karnataka, Kerala, Maharashtra, Odisha, Punjab, Rajasthan, Tamil Nadu and West Bengal)	5 States (Haryana, Karnataka, Kerala, Punjab and Tamil Nadu)	10 States (Gujarat, Haryana, Karnataka, Kerala, Maharashtra, Odisha, Punjab, Rajasthan, Tamil Nadu and West Bengal)	6 States (Haryana, Karnataka, Kerala, Maharashtra, Punjab and Tamil Nadu)
<b>80-90</b>	2 States (Assam and Madhya Pradesh)	2 States (Gujarat, and Maharashtra)	2 States (Assam and Madhya Pradesh)	1 State (Odisha)
<b>50-80</b>	7 States (Andhra Pradesh, Bihar, Chhattisgarh, Jammu & Kashmir, Jharkhand, Uttarakhand and Uttar Pradesh)	8 States (Andhra Pradesh, Chhattisgarh, Jammu & Kashmir, Jharkhand, Madhya Pradesh, Odisha, Rajasthan, and West Bengal)	7 States (Andhra Pradesh, Bihar, Chhattisgarh, Jammu & Kashmir, Jharkhand, Uttarakhand and Uttar Pradesh)	9 States (Andhra Pradesh, Chhattisgarh, Gujarat, Jammu & Kashmir, Jharkhand, Madhya Pradesh, Rajasthan, Uttarakhand and West Bengal)
<b>25-50</b>	NIL	3 States (Assam, Uttarakhand and Uttar Pradesh)	NIL	3 States (Assam, Bihar and Uttar Pradesh)
<b>Below 25</b>	NIL	1 State (Bihar)	NIL	NIL

3.15.1.8 Haryana, Karnataka, Kerala, Punjab and Tamil Nadu are the only five major States recording more than 90 percent of registered births as well as deaths both in 2011 and 2012. Bihar is the only State in case of death registration in the lowest category during 2011 which has now jumped to the next category during 2012. No State has fall under the category of less than 50 percent of registration of births during 2011 as well as 2012. There is no change in the number of major States during both the years 2011 and 2012 in the category of above 90 per cent of level of registration of birth. Maharashtra has moved one step up in case of death registration during 2012 whereas the State of Gujarat has dropped by one category in case of registration of deaths during 2012 as compared to 2011.

3.15.1.9 The level of registration of births and deaths for the year 2012 for India and States/UTs has together been mapped in the Chart 16. The rectangle on the top right corner is the expected target towards achieving the cent percent registration and status of each States is depicted in the Chart 16.

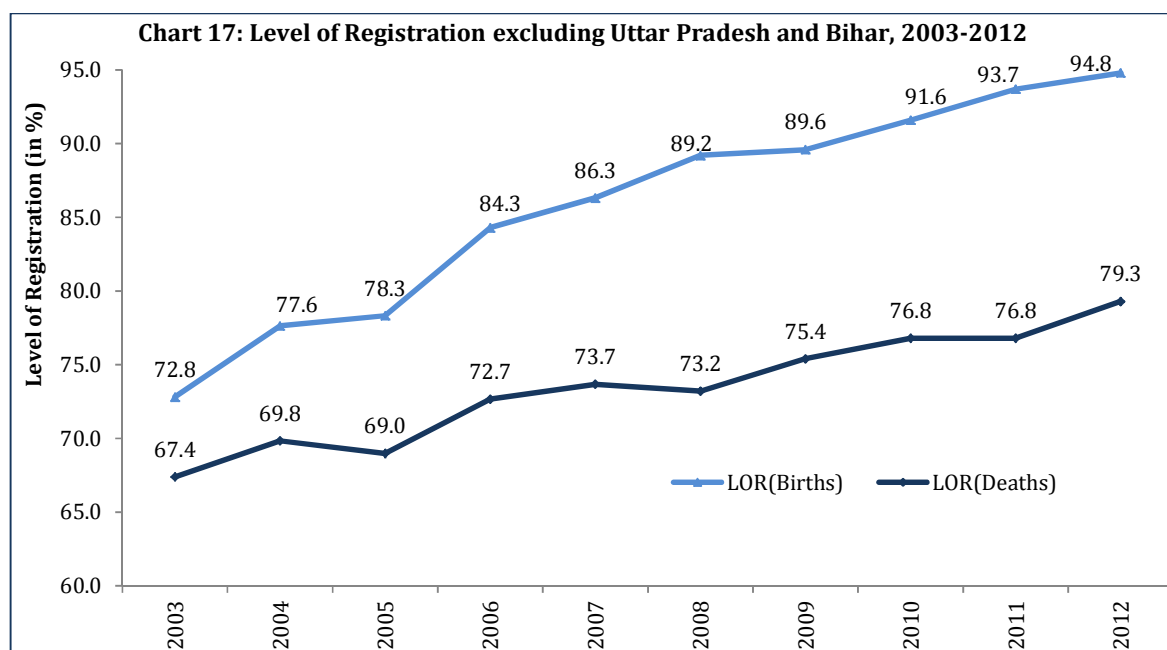

**Chart 16: Level of Registration of Births and Deaths, 2012**

Andhra Pradesh (AP), Arunachal Pradesh (AR), Assam (AS), Bihar (BR), Chhattisgarh (CH), Goa (GO), Gujarat (GJ), Haryana (HR), Himachal Pradesh (HP), Jammu & Kashmir (JK), Jharkhand (JH), Karnataka (KA), Kerala (KL), Madhya Pradesh (MP), Maharashtra (MH), Manipur (MN), Meghalaya (ME), Mizoram (MZ), Nagaland (NG), Orissa (OR), Punjab (PB), Rajasthan (RJ), Sikkim (SK), Tamil Nadu (TN), Tripura (TR), Uttar Pradesh (UP), Uttarakhand (UK), West Bengal (WB)

### 3.16 Level of Registration after excluding Uttar Pradesh and Bihar

3.16.1 In order to quantify the impact of Bihar and Uttar Pradesh, which are most populous and performing abysmally poor for last so many years, the level registration for the country excluding these two States have been worked out and mapped in Chart 17 from 2003 onwards. These two States even after showing marginal improvement in functioning of Civil Registration during last several years still suppresses the national figure for registration of both births and deaths by around 10 per cent.

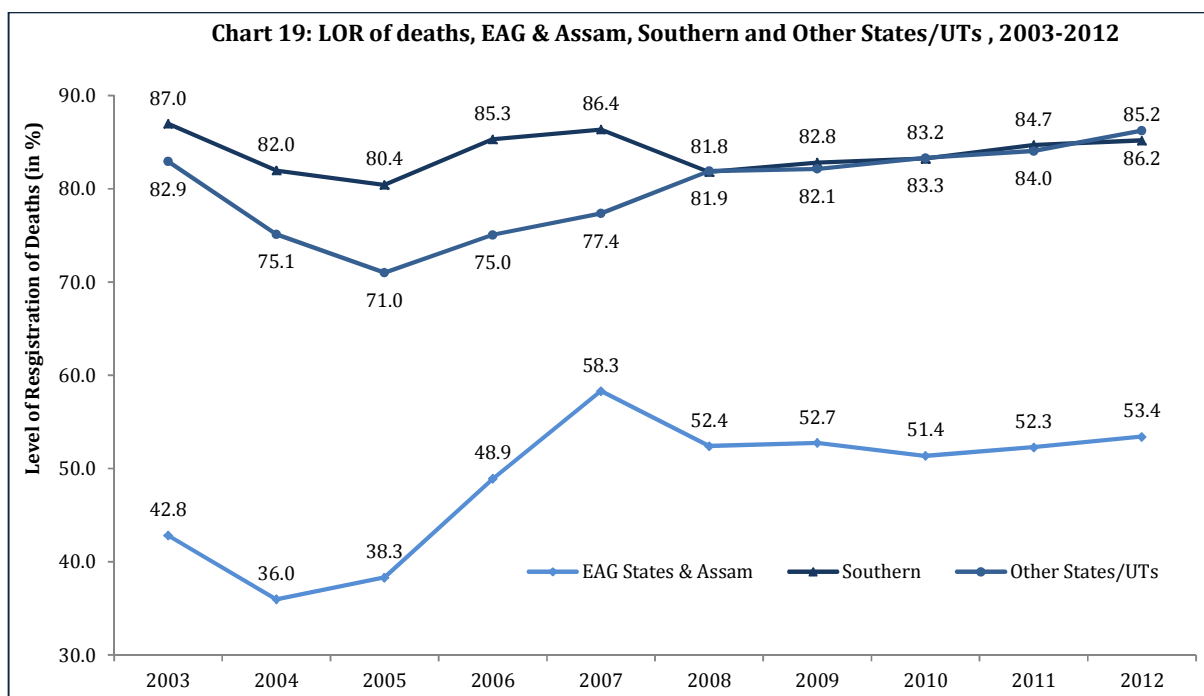

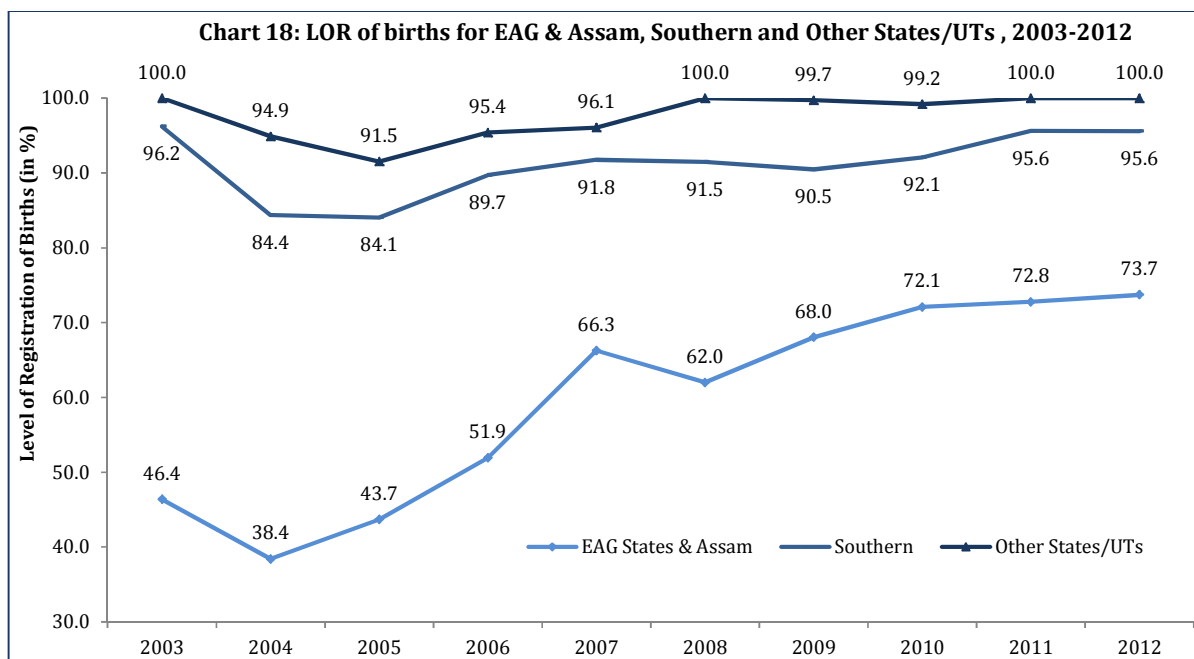

### 3.17 Comparison of level of registration of births and deaths in EAG & Assam, Southern States and Other States/UTs

3.17.1 In order to highlight the gap in the demographic profile of i) Empowered Action Group (EAG) States & Assam, ii) Southern States and iii) other States/UTs, the level of registration for births and deaths (two important indicators describing the registration efficiency) have been worked out and shown in the charts 18 and 19 respectively.

3.17.2 The compositions of these three groups in terms of States/UTs are as under:

- EAG States: Bihar, Jharkhand, Madhya Pradesh, Chhattisgarh, Odisha, Rajasthan, Uttar Pradesh and Uttarakhand. Assam has also been added to this group.
- Southern States: Andhra Pradesh, Karnataka, Kerala and Tamil Nadu.
- Other States/UTs: This category covers all the remaining States and UTs.

3.17.3 It can be seen that the level of registration of births for other States/UTs is higher than that of Southern as well as EAG States & Assam persistently over the period. This perhaps is due to low level of registration of births in Andhra Pradesh. In case of performance of case of death registration these group differs where the Southern States are better than the other 2 groups.

### 3.18 Sex Ratio at Birth

3.18.1 The Sex Ratio (Number of females per thousand males) at birth is an important indicator to map the sex differential of the population at the beginning of their life. The sex ratio at birth has been calculated for different States/UTs for the year 2003 to 2012 and shown in the Statement 16.

**Statement 16: Sex Ratio at Birth based on registered events, 2003-2012**

Note: n.a. – not available; n.r. – not reported.

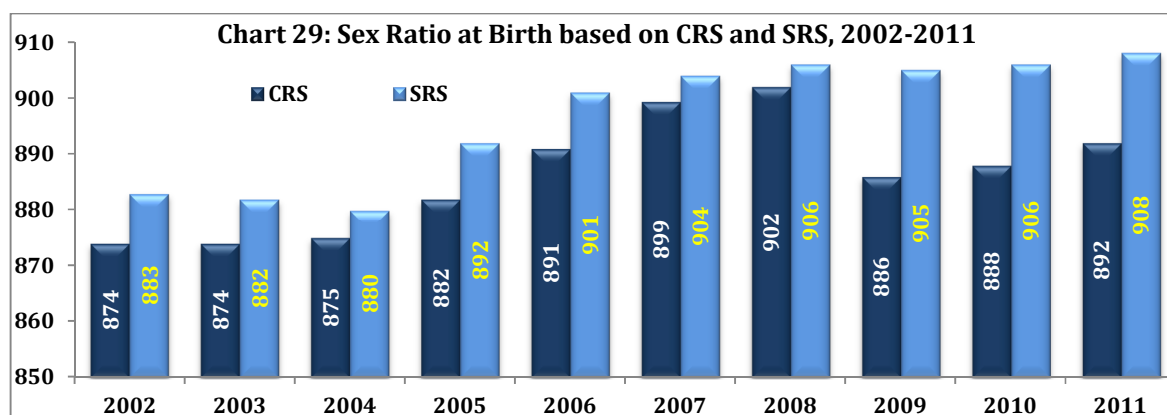

3.18.2 It can be seen from the Chart 28 that the Sex Ratio at Birth based on registered events of Andhra Pradesh and Tripura have shown the highest sex ratio which is due to better netting of female birth during 2012 and Manipur has shown the lowest sex ratio at birth for the same year. The sex ratio at birth at national level is 908 during 2012. The Sex Ratio at birth for the country ranges from 857 to 909 over the years 2003-2012. In 2011 and 2012, the sex ratio at birth has shown

improvements due to better netting of female births. The sex ratio at birth has shown noticeable improvements in the States of Maharashtra and Sikkim in 2012 as compared to 2011. Karnataka and Andhra Pradesh have the distinction of being the only major states reporting favorable sex ratio at birth in last so many years.

3.18.3 The sex ratio at birth could not be worked out for Bihar, Jammu & Kashmir and Lakshadweep for want of sex-wise disaggregated data on registered births for the year 2012. The sex ratio at birth for India is exclusive of returns from these 3 States. Non-reporting of gender-wise break up of registered events is another area where urgent attention is required.

3.18.4 In order to evaluate the performance of Civil Registration System on this front also, a comparison of sex ratio at birth based on registered births with that of from SRS by taking three years simple moving average for the years 2002-2011 has been done and the same is shown in Chart 29.

3.18.5 It can be seen from the above graph that the gap at the national level was narrowing down till 2008 but due to poor registration of females in majority of the bigger States, this has gone down during 2009 and 2010. However, it may take few more years under the Civil Registration System to bridge the gap in Sex Ratio arrived from CRS and SRS.

### 3.19 Registered Births & Deaths of Indian Nationals in Indian Missions/Post abroad

3.19.1 Statement 17 presents the number of registered births and deaths during 2012 of Indian Nationals in Indian Mission/Post abroad. These events of Indian citizens occurring abroad are registered by the respective Indian Consulates under the Citizenship Act, 1955.
